Dombrowski,2023-01-01 A stunning exploration of the vital links between Claude Monet s Impressionism and the time
technologies that helped define modernity in the nineteenth century Monet s Minutes is a revelatory account charting the
relationship between the works of Claude Monet 1840 1926 founder of French Impressionism and one of the world s best
known painters and the modern experience of time Andr Dombrowski illuminates Monet s celebration of instantaneity in the
context of the late nineteenth century time technologies that underwrote it Monet s version of Impressionism demonstrated
an acute awareness of the particularly modern pressures of time but until now scholars have not examined the histories and
technologies of time and timekeeping that informed Impressionism s major stylistic shifts Arguing that the fascination with
instantaneity rejected the dulling cultures of newly routinized and standardized time Monet s Minutes traces the evolution of
Monet s art to what were then seismic shifts in the shape of time itself In each chapter Dombrowski focuses on the
connections between a set of Monet s works and a specific technology or experience of time while providing the voices of
period critics responding to Impressionism Grounded in exceptional research and analyses this book offers new
interpretations of key works by Monet and a fresh perspective on late nineteenth century art society and modern temporality
