**Under Assault** Dennis Molinaro, 2025-11-18 FOREWORD BY CHERIE WONG National security expert Dennis Molinaro reveals the shocking details of Beijing's five decades long effort to influence and interfere in Canadian political life From cultivating future political leaders at the end of the Cultural Revolution to the foreign interference scandals that have shaken present day Ottawa this definitive book addresses one of the most urgent issues of our time Amidst heightened tensions between Western nations and China Canadians have found themselves astonished by hostage crises cyberattacks harassment of members of our government and theft of intellectual property worth untold billions of dollars Guided by Molinaro's experience as a historian and China specialist Under Assault focuses on the actions of the People's Republic of China's government and its governing party the Chinese Communist Party against Canada during the past fifty years From Prime Minister Pierre Elliott Trudeau's earliest journeys through the Middle Kingdom prior to his election to Parliament in the 1960s the communist government of the PRC has perceived Canada as a staging ground for spying on and pressuring its ultimate target the United States When Canada's first tech giant Nortel was plundered of intellectual property by digital spies while Canada was manipulated into advocating against the independence of Taiwan and as Chinese Canadians were targeted in the country where they thought they'd escaped Mao's terrors Canada's leaders have too often seen only what they want to see in China an emerging market of inestimable value and fertile soil for democratic change for a long tyrannized people Generations of Communist leadership have gladly allowed Canada's government to

labour under these misapprehensions even when the evidence of China's spying, theft and harassment of Canadian citizens has been happening right before its eyes. Canada has rarely allowed itself to believe what the rest of the world has long understood. Informed by numerous interviews with generations of Canadian politicians, diplomats and bureaucrats, members of diaspora communities targeted by China who have endured this harassment for too long, as well as by new revelations from recently declassified CSIS documents, *Under Assault* is a timely eye-opening account of a country compromised by its own illusions in a time of rising global conflict and a burgeoning new world order.

**Trafficking Data** Aynne Kokas, 2023 In *Trafficking Data*, Aynne Kokas looks at how technology firms in the two largest economies in the world, the United States and China, have exploited government policy and the lack thereof to gather information on citizens, putting US national security at risk. Kokas shows how US corporations' influence on tech regulation paved the way for exploitative data gathering, not just by US corporations but by Chinese corporations as well. To resolve this issue in the US requires changing foundational values, not just in the tech ecosystem but in the relationship between industry and government in the United States.

Mueller, Karim Farhat, 2023 This paper conducts a comprehensive national security threat analysis of TikTok The analysis is based on cybersecurity principles that pertain to international rivalries and power struggles between states The guiding questions of this study are whether TikTok can be considered a tool of information warfare a form of espionage and or a tool for offensive cyber operations by the Chinese government In assessing the risk of allowing TikTok it weighs those risks against the costs and risks of a TikTok ban [All about TikTok](#) Kerry Kelaher Fredeen, 2025 Known for its funny dance

videos TikTok has become one of the most popular social media apps in the world today But the platform offers much more than these entertaining clips that helped it rise to fame Users can find videos about almost anything on TikTok from celebrity updates to breaking news The app has even made news of its own In 2024 the U S government passed a bill to ban TikTok unless it is sold The move inspired debates about whether the decision violates Americans right to free speech Part of the All About Social Media series All About TikTok discusses the history features and future of the fun social media app Provided by publisher

**The Effect of TikTok on Political Extremism in the United States** Jada Talbot, 2023 America is a nation divided In recent years levels of political polarization in the country have reached historical highs threatening the nation s chance of unifying to meaningfully address the various large scale issues it faces an opioid crisis exorbitant healthcare costs and a yawning federal budget deficit to name several Interestingly this divide has come at a time when Americans have an unprecedented ability to communicate with one another by way of social media Indeed a body of literature indicates that social media has in fact contributed to America s polarized nature Hawdon et al 2020 Koiranen et al 2019 Medina Serrano et al 2020 This thesis seeks to add to that body of work exploring how social media influences political polarization Specifically I examine how consuming political content on TikTok affects an individual s level of political extremism as well as the difference in political extremism between TikTok users and non TikTok users Previous work on this topic has centered on more traditional social media platforms like Twitter and Facebook Barber 2020 Banks et al 2021 Cinelli et al 2021 Yarchi et al 2021 This study therefore seeks to provide an updated understanding of this topic by focusing on a newer platform TikTok which is soaring in popularity Administering a survey to a student pool N 231 at a large public university in the Northeast I assessed how exposure to political content on TikTok affects one s political extremism Respondents answered a series of questions designed to gauge the average amount of political content they were viewing on TikTok as well as a series of issue based political questions to determine the respondent s level of political extremism The findings reveal that partisanship age

race and income are the most significant predictors of an individual's level of extremism not their TikTok habits. Consistently, partisanship was the most significant predictor of extremism. These findings suggest that other factors are influencing political extremism in the United States and that social media may have less impact than previous research asserts. However, the limitations of this study call for additional research to be conducted to fully understand the relationship between social media and political polarization in the United States.
