Comprehensive Inorganic Chemistry II ,2013-07-23 Comprehensive Inorganic Chemistry II Nine Volume Set reviews and examines topics of relevance to today s inorganic chemists Covering more interdisciplinary and high impact areas Comprehensive Inorganic Chemistry II includes biological inorganic chemistry solid state chemistry materials chemistry and nanoscience The work is designed to follow on with a different viewpoint and format from our 1973 work Comprehensive Inorganic Chemistry edited by Bailar Emel us Nyholm and Trotman Dickenson which has received over 2 000 citations The new work will also complement other recent Elsevier works in this area Comprehensive Coordination Chemistry and Comprehensive Organometallic Chemistry to form a trio of works covering the whole of modern inorganic chemistry Chapters are designed to provide a valuable long standing scientific resource for both advanced students new to an area and researchers who need further background or answers to a particular problem on the elements their compounds or applications Chapters are written by teams of leading experts under the guidance of the Volume Editors and the Editors in Chief The articles are written at a level that allows undergraduate students to understand the material while providing active researchers with a ready reference resource for information in the field The chapters will not provide basic data on the elements which is available from many sources and the original work but instead concentrate on applications of the elements and their compounds Provides a comprehensive review which serves to put many advances in perspective and allows the reader to make connections to related fields such as biological inorganic chemistry materials chemistry solid state chemistry and nanoscience Inorganic chemistry is rapidly developing which brings about the need for a reference resource such as this that summarise recent developments and simultaneously provide background information Forms the new definitive source for researchers interested in elements and their applications completely replacing the highly cited first edition which published in 1973

Real Women Run Sandra Faulkner,2018-01-17 Real Women Run is an innovative feminist ethnography that

consists of a series of linked essays and presentations about women who run at the intersections of queer feminist and running identities Faulkner uses feminist grounded theory poetic inquiry and qualitative content analysis to examine women s embodied stories of running how they run how running fits into the context of their lives and relationships how they enact or challenge cultural scripts of women s activities and normative running bodies and what running means for their lives and identities During a two and a half year ethnography with women who run Faulkner engaged in an intersectional qualitative content analysis of websites and blogs targeted to women runners a grounded theory poetic analysis of 41 interviews with women who run and participant observation at road races Real Women Run speaks to the call for a more physical feminism This ethnography sees women s physical and mental strength developed through running as a way to embrace the contradictions between a deconstructed focus on the mind body split and the focus on individuals actual material bodies and their everyday interactions with their bodies and through their bodies with the world around them **Comparing**

Strategies of (De)Politicisation in Europe Jim Buller,Pınar E. Dönmez,Adam Standring,Matthew Wood,2018-07-03 This book investigates the extent to which depoliticisation strategies used to disguise the political character of decision making have become the established mode of governance within societies Increasingly commentators suggest that the dominance of depoliticisation is leading to a crisis of representative democracy or even the end of politics but is this really true This book examines the circumstances under which depoliticisation techniques can be challenged whether such resistance is successful and how we might understand this process It addresses these questions by adopting a novel comparative and interdisciplinary perspective Scholars from a range of European countries scrutinise the contingent nature of depoliticisation through a collection of case studies including economic policy transport the environment housing urban politics and government corruption The book will be appeal to academics and students across the fields of politics sociology urban geography philosophy and public policy [The Corset and Underwear Review](#) ,1945 [The Journal of Physical Chemistry](#)
