We sincerely invite you to participate in MIED 2025 FTBM 2025 and look forward to seeing you in Chongqing **Human vs ChatGPT - Language of Advertising in Beauty Products Advertisements** Ida Skubis, Dominika Kołodziejczyk, 2024-11-21

This book systematically investigates the linguistic strategies employed in beauty product advertising to assess their persuasive and manipulative effects. The work is divided into two sections: a review of relevant literature and an empirical analysis of advertisements. The analysis initially focuses on the linguistic features of advertisements created by humans prior to the introduction of ChatGPT, examining the linguistic measures used and their methods of persuasion and manipulation. Subsequent sections provide a detailed examination of advertisements generated by ChatGPT versions 3.5 and 4.0, analysing the artificial intelligence's use of linguistic techniques. This includes a meta-analysis where ChatGPT itself discusses the linguistic strategies it employs. The ultimate goal is to compare and contrast the effectiveness and linguistic devices used in advertisements crafted by humans and those by ChatGPT, analysing how AI influences the language of advertising and its impact on consumer behaviour.

Artificial Intelligence for Business Creativity Margherita Pagani, Renaud Champion, 2023-07-05 Artificial Intelligence for Business Creativity provides an in-depth examination of the integration of Artificial Intelligence (AI) into the business sector to foster creativity. The book explores the interplay between micro-level individual creativity and macro-level organizational innovation through the lens of AI. It delves into three crucial areas where AI can stimulate business creativity: product and service design, optimized processes, and enhanced organizational collaboration. The authors also highlight the versatility and capability of generative AI systems in promoting creativity and innovation. Intended for business leaders, managers, entrepreneurs, and those interested in AI and creativity, the book offers practical guidance and insightful recommendations on how organizations can effectively utilize AI to enhance their creative process. By offering a comprehensive understanding of the role of AI in fostering creativity, the book equips its readers with the tools to stay ahead in the rapidly changing landscape of AI and creativity. This book is a valuable resource for anyone seeking to understand the impact of AI on business creativity and how to effectively leverage it to foster creativity and innovation in their organization. It is a must-read for anyone looking to increase their knowledge and understanding of AI and its impact on business creativity.

Integrated Business Innovation Vijay Pandiarajan, 2025-12-12 Integrated Business Innovation shows how organizations can move beyond the buzz of artificial intelligence, particularly generative AI, and apply it thoughtfully to solve real-world business problems. While tools like ChatGPT and other large language models offer accessible and intuitive power, many companies struggle to extract lasting value because they fail to clearly define the problems they are trying to solve. This book addresses that gap by integrating the principles of design thinking with AI and other fourth industrial age technology capabilities, offering a structured approach to identifying business challenges and developing innovative, customer-centered solutions. Across 12 chapters, the book blends foundational insights with applications across industries such as healthcare, manufacturing, retail, government, and education. With a wide array of illustrative mini-cases

woven throughout the book including five expanded case studies in Part III readers will learn how to recognize strategic opportunities navigate implementation challenges and unlock measurable business impact using AI This book is a vital new resource for undergraduates postgraduates and professionals on executive education courses and will also appeal to leaders practitioners and consultants equipping readers with the mindset and methods needed to innovate with purpose in an era of intelligent systems
