Social Media and Sports Galen Clavio, 2021 *Social Media and Sports* provides a holistic view of the impact of social media on sports communication teaching conceptual understanding and creative skills for social media strategy content creation and execution

The Networked Library Melissa A. Purcell, 2012-07-16 The lesson plans in this book enable educators to easily incorporate networking technologies into the classroom not just a fun enrichment activity but one that is selective and intentional to teach the required standards Our Web 2.0 world is based on participation Incorporating networking sites into classroom lesson plans invites students to participate and get involved using the digital learning styles with which they are already accustomed interacting with new information building knowledge and sharing that knowledge with an authentic responsive audience The *Networked Library A Guide for the Educational Use of Social Networking Sites* demonstrates how integrating networking tools that students enjoy using can improve their learning in the classroom The book is designed to take educators who are new to networking sites from the ground up while allowing experts to jump directly into the lesson plan chapters It covers many types of networking sites that educators can use to their advantage media sharing sites including YouTube TeacherTube Wikimedia Commons and Flickr microblogs and wikis such as Wikispaces PBworks and Twitter and social networking sites including Facebook Ning and Edmodo

Living on a Meme Richard Telofski, 2012 *Living on a Meme How Anti Corporate Activists Bend the Truth and You to Get What They Want* is about the NGOs and activist groups that engage corporations adversarially and how they use meme to further their anti corporate agendas What is meme Say the word as meeeeeem The dictionary says that a meme is an idea that spreads from one person to another And thanks to today's Internet memes get started spread and believed in a flash whether they are true or not making them formidable tools for groups that damage company reputations Here in his fifth book author Richard Telofski takes an in depth look at anti corporate NGOs and activist groups that use memes cleverly to compete with the image of the companies they target These groups unabashedly use unchallenged memes to bribe people to their side of their anti corporate argument Bribe Yes By leveraging a meme these groups bribe people with something a way to feel better about themselves often with scant or no support of the meme Through their meme mangling adversarial NGOs and activists can impose undesired damage on corporate reputations costing market share revenue and jobs maybe one of them yours These organizations are truly competitors not only to the individual corporations that they target but also to the economic system in general *Living on a Meme* is compiled from a selection of articles published on Richard's Web site Telofski.com between August 1 2009 through August 3 2010 But many of these writings are more essay than article Within the essays in this book you'll find insights theories as well as specific facts and analysis on how certain NGOs and activist groups operate online and offline to sap companies of their vital reputation By reading this book you'll discover how these irregular competitors make use of existing cultural memes true or not and how they contribute to those memes strengthening them and contributing to the

degradation of a company's image. Don't worry. This book isn't just a repackaging of blog postings. You're going to get more than that. At the end of each chapter you will find bonus Take Aways. Those Take Aways are critical analyses of the essays in the chapter pointing out for you how what was just discussed relates to an NGO's or activist's reliance of living on a meme or their hope that YOU are living on THEIR meme for them. You'll also find in this book 23 exclusive essays that appear only in this book. So start your journey now into the understanding of how anti-corporate NGOs and activists bend the truth and the beliefs of people to get what they want. New Media and Visual Communication in Social Networks Kir, Serpil, 2019-08-30

Social media and new social facilities have made it necessary to develop new media design processes with different communication strategies in order to promote sustainable communication. Visual communication emphasizes messages that are transmitted through visual materials in order to effectively communicate emotions, thoughts, and concepts using symbols instead of words. Social networks present an ideal environment for utilizing this communication technique. New Media and Visual Communication in Social Networks is a pivotal scholarly publication that examines communication strategies in the context of social media and new digital media platforms and explores the effects of visual communication on social networks, visual identity, television, magazines, newspapers, and more. Highlighting a range of topics such as consumer behavior, visual identity, and digital pollution, this book is essential for researchers, practitioners, entrepreneurs, policymakers, and educators.

Flexible Ridesharing Volker Handke, Helga Jonuschat, 2012-12-14 Individual mobility is one of the most important needs of modern society and an important link between private, public, and economic life. In contrast, transport also entails severe environmental and social burdens, foiling current efforts for sustainable development. As the main source of CO₂ emissions, transport is a prominent driver for climate change, and individual car traffic is responsible for nearly a third of the total energy consumption. However, we have to consider that many commuters feel indeed very dependent on their car. Here, ridesharing promises to contribute to environmental protection while still offering individual mobility. Although ridesharing options have been discussed since many years, internet and smartphones provide completely new opportunities to find ridesharing partners today. Thus, this book deals with current efforts on implementing flexible internet and phone-based ridesharing services. With a main focus on the user's perspective, their demands, and acceptance limits, we aim to explore success factors for non-profit but also commercial ridesharing concepts. **Searcher**, 2008-11 **Ethics in Marketing**

Patrick E. Murphy, Gene R. Laczniak, Fiona Harris, 2016-12-13 Understanding and appreciating the ethical dilemmas associated with business is an important dimension of marketing strategy. Increasingly, matters of corporate social responsibility are part of marketing's domain. *Ethics in Marketing* contains 20 cases that deal with a variety of ethical issues such as questionable selling practices, exploitative advertising, counterfeiting, product safety, apparent bribery, and channel conflict that companies face across the world. A hallmark of this book is its international dimension along with high-profile case studies that represent situations in European, North American, Chinese, Indian, and South American companies. Well

known multinationals like Coca Cola Facebook VISA and Zara are featured This second edition of Ethics in Marketing has been thoroughly updated and includes new international cases from globally recognized organizations on gift giving sustainability retail practices multiculturalism sweat shop labor and sports sponsorship This unique case book provides students with a global perspective on ethics in marketing and can be used in a free standing course on marketing ethics or marketing and society or it can be used as a supplement for other marketing classes
