Why Service Matters

Raul Pupo,2019-06-20 Why Service Matters is a collection of over fifty essays that Raul Pupo asserts will change the way you think about service What consumers in business education and government receive by way of service has gotten progressively worse over time What is most distressing however is that there does not appear to be any cause for optimism that the shoddy service being dished out to consumers will improve any time soon That is not unless and until leaders come to grips with the fact that service to the customer is grounded in four critical success factors or foundational propositions a leadership that unequivocally believes they are in business first and foremost to serve the customer a strategic planning regimen centered

on the customer an ethic of service to guide the organization to always err on behalf of the customer and a competent motivated supported and empowered front line organization

Reading Sounds Sean Zdenek, 2015-12-23 Imagine a common movie scene a hero confronts a villain Captioning such a moment would at first glance seem as basic as transcribing the dialogue But consider the choices involved How do you convey the sarcasm in a comeback Do you include a henchman s muttering in the background Does the villain emit a scream a grunt or a howl as he goes down And how do you note a gunshot without spoiling the scene These are the choices closed captioners face every day Captioners must decide whether and how to describe background noises accents laughter musical cues and even silences When captioners describe a sound or choose to ignore it they are applying their own subjective interpretations to otherwise objective noises creating meaning that does not necessarily exist in the soundtrack or the script *Reading Sounds* looks at closed captioning as a potent source of meaning in rhetorical analysis Through nine engrossing chapters Sean Zdenek demonstrates how the choices captioners make affect the way deaf and hard of hearing viewers experience media He draws on hundreds of real life examples as well as interviews with both professional captioners and regular viewers of closed captioning Zdenek s analysis is an engrossing look at how we make the audible visible one that proves that better standards for closed captioning create a better entertainment experience for all viewers
