**Designing for Democracy** Jennifer Forestal,2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory *Designing for Democracy* provides blueprints for democracy in a digital age

*The Dark Social* Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies *The Dark Social Online Practices of Resistance Motility and Power* will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods

and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies
