Christine Edwards-Leis,Mark Price,2025-11-27 Pedagogy in Higher Education provides a critical context for the exploration of the complex ways that pedagogy impacts the stakeholders of universities and their interrelationships *Higher Education Accountability* Robert Kelchen,2018-02-27 The first comprehensive overview charting the accountability of higher education As the price tag of higher education continues to rise colleges and universities across the country are under increasing pressure to demonstrate their value Graded on numerous metrics including cost and ability to prepare students for the job market colleges must satisfy requirements from multiple stakeholders State and federal governments demand greater accountability Foundations and private donors as well as today s parents and students approach education with a consumer sensibility How can colleges navigate these pressures while trying to stay true to their missions and values In *Higher Education Accountability* Robert Kelchen delivers the first comprehensive overview of how colleges in the United States came to face such overwhelming scrutiny Beginning with the earliest efforts to regulate schools Kelchen reveals the rationale

behind accountability and outlines the historical development of how federal and state policies accreditation practices private sector interests and internal requirements have become so important to institutional success and survival With so many diverse and conflicting entities holding colleges responsible for their performance the variety of accountability systems in play can have both intended and unintended consequences Immersed as they are in current debates about how best to respond to these pressures faculty and administrators will welcome this up to date and timely account which offers not only a look at current practices but also an examination of the future of accountability in American higher education

Negotiating Learning and Identity in Higher Education Bongi Bangeni,Rochelle Kapp,2017-09-21 While access to higher education has increased globally student retention has become a major challenge This book analyses various aspects of the learning pathways of black students from a range of disciplinary backgrounds at a relatively elite English medium historically white South African university The students are part of a generation of young black people who have grown up in the new South Africa and are gaining access to higher education in unprecedented numbers Based on two longitudinal case studies *Negotiating Learning and Identity in Higher Education* makes a contribution to the debates about how to facilitate access and graduation of working class students The longitudinal perspective enabled the students participating in the research to reflect on their transition to university and the stumbling blocks they encountered in their senior years The contributors show that the school to university transition is not linear or universal Students had to negotiate multiple transitions at various times and both resist and absorb institutional disciplinary and home discourses The book describes and analyses the students ambivalence as they straddle often conflicting discourses within their disciplines within the institution between home and the institution and as they occupy multiple subject positions that are related to the boundaries of place and time Each chapter also describes the ways in which the institution supports and or hinders students progress explores the implications of its findings for models of support and addresses the issue of what constitutes meaningful access to institutional and disciplinary discourses **The London Gazette** Great Britain,1919 University Rankings, Diversity, and

the New Landscape of Higher Education ,2019-02-18 University rankings are a relatively new phenomenon in higher education Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear rankings attempting to measure university performance beyond national borders No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world This book is written as part of the effort to better understand rankings and their effects on higher education A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology A serious analysis should also discuss the wider implications of rankings as an

emerging phenomenon in higher education Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector
