Addressing Gaps and Advancing Scholarship in the Study of Psychological Contracts Sarah Banks, Yannick Griep, Samantha D. Hansen, 2024-08-09 This book acknowledges the significant changes in the context and contours of the traditional employee employer relationship over the last several decades and highlights the emergence of exciting new directions for the study of psychological contracts. New technologies and emergent forms of work are extending the temporal and spatial boundaries of employment such as through the rise of the shared economy and gig workers uptake of virtual work and flexible work arrangements and the use of off site co working spaces. Technology use now permeates many aspects of jobs supported by artificial intelligence and machine learning technology. Factors that motivate work are also changing as new generations of employees embrace their callings and organizations increasingly recognize their responsibilities to society and to employee wellbeing. These changes are altering the traditional employer employee relationship and are key motivators of this volume. The chapters in this volume chart new directions for PC research over the next decade by widening the theoretical and methodological lenses used to explore PC processes. This book will be valuable to advanced students, researchers and practitioners in organizational psychology, organization studies, workplace training and human resource management as well as those interested in improved performance of people and organizations. The chapters in this book were originally published as a special issue of the European Journal of Work and Organizational Psychology.

Handbook of Marketing Research Methodologies for Hospitality and Tourism Ronald A. Nykiel, 2007 The final section explains market analysis, planning and communications including preparing a research based business review and the effective presentation of research findings.

Handbook of Black Librarianship Andrew P. Jackson, Marva L. DeLoach, Michele Fenton, 2024-12-15 Winner of the BCALA 2025 Literary Award for Outstanding Contribution to Publishing. As Dr Josey and Ms DeLoach wrote in their Introduction to the second edition of *The Handbook of Black Librarianship*: In designing the second edition of *The Handbook of Black Librarianship* the editors felt that this work should be a reference tool related to the various aspects of African Americans in librarianship and their work in libraries. That first edition covered issues faced by black library professionals in the various fields of librarianship, organizations, formed black library collections and books, resources and other areas of progress. The second edition, published twenty three years later, highlighted more current events in Black librarianship, early and contemporary library organizations, vital issues, African American resources, discussions on and about librarianship, a focus on health librarianship and information resources and education. It has now been another twenty two years since the last edition and time to reflect on various aspects of African Americans in our profession as well as the advancements over the past two and a half decades and to review those issues African Americans still face and how modern technological advancements have impacted our profession and the lives of Black librarians. This third edition's coverage includes: Pioneers and Landmark Episodes, A Chronology of Events in Black Librarianship, African
