Out of Pocket Clark McGinn, 2013-08-15 I started writing this book three years ago to amuse my fellow bankers Little did we all know what was about to happen But we should have Sorry CLARK McGINN Cliches are the fossils of wisdom That's why we ignore them Particularly those with warnings the value of your investments may go down as well as up and especially in the happy days of a financial boom Shock Horror The cliché was true and we are left staring into a crater once known as the financial markets This has happened before this bust is a whopper but it shares the symptoms of the crash in which your parents lost money and their parents and theirs before them So don't believe this is the last credit crunch there are teenage optimists alive now who will reach maturity and guide our children into the next boom and its collapse Collective Amnesia ensures that the long view is smothered as we watch the pendulum swing from greed to fear and back again This isn't just a disease of a shadowy group of bankers but is a communal blunder in which we all share financiers regulators politicians even ordinary savers or buyers of houses cars and consumer goods we all chased the market up the hill and over the cliff and we all end up out of pocket Written by a senior banker with many years experience this book takes the long view It shows how simple the basics of banking are and tells the stories of how we lost money in similar ways over the centuries Read it and you might just lose less money next time BACK COVER If only the world's finance ministers bank CEOs non execs customers borrowers little old ladies all of us had read this book 3 years ago or 30 years ago we wouldn't be in the mess we're in But we are So read this book and weep And take solace in the fact that financial calamities have happened many many times before and will happen again
