rise along with Jack Ma's offers a fascinating window onto China's staggering transformation. The Wall Street Journal. In just a decade and half Jack Ma, a man who rose from humble beginnings and started his career as an English teacher, founded and built Alibaba into the second largest Internet company in the world. The company's \$25 billion IPO in 2014 was the world's largest, valuing the company more than Facebook or Coca-Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day, providing employment and income for tens of millions more. A Rockefeller of his age, Jack has become an icon for the country's booming private sector and as the face of the new consumerist China, is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material, including exclusive interviews, Clark draws on his own first-hand experience of key figures integral to Alibaba's rise to create an authoritative, compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new-found economic freedom, inspiring entrepreneurs around the world and infuriating others, turning the tables on the Silicon Valley giants who have tried to stand in his way. An expert insider with unrivaled connections, Clark has a deep understanding of Chinese business mindset. He illuminates an unlikely corporate titan as never before and examines the key role his company has played in transforming China while increasing its power and presence worldwide. A must read for anyone hoping to navigate China's new economy. Financial Times.
