Theis, Mark G. Terwilliger, 2021-09-21 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA's Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision **The Sporting News**, 1982 [USA Today Index](#), 1996 **ESPN Sports Almanac 1999** Gerry Brown, Michael Morrison, 1998-11-05 ESPN has taken the original Information Please Sports Almanac known for its thorough

Thompson, 2005-12-07 In 2006 the NBA will celebrate its 60th anniversary as a competitive league Upon its establishment in 1946 the NBA via its forerunner the Basketball Association of America became the 21st professional basketball league to be formed in the U.S. and the one that would outlast all the others In addition since 1896 when professional basketball began in Trenton New Jersey thousands of players have competed in a pro game and generated countless hours of debate as to who the best players are in the history of the sport In fact precisely 3572 players and 439 All stars have graced the courts of the NBA and the iconoclastic American Basketball Association when it was in operation between 1967 and 1976 many with spectacular and sometimes incredible performances And until now there has never been a truly scientific method of evaluating their performances on a basketball court and determining who the all time best is Finally after 109 years such a measure has been created This book Heroes of the Hardcourt Ranking Pro Basketball's 100 Greatest Players ranks the 100 greatest players to

play professional basketball since 1946 by utilizing a scientific methodology the Performance Efficiency Rating PER System developed by the author who is a former economics professor This is the most comprehensive measure ever devised to accurately measure basketball performance and answer the question of who is the greatest basketball player ever The PER methodology has also proven remarkably accurate in determining the true MVP winner in the NBA for the past ten years correctly predicting the eventual winner the majority of the time Heroes of the Hardcourt in addition to profiling the top 100 players counting down from number 100 all the way to number one also provides an historical summary of the one hundred plus years of professional basketball in the U S and concludes with an analysis of the 1984 draft in which four of the best players to ever compete were drafted It concludes that not only did the Portland Trailblazers make a poor decision in selecting Sam Bowie over Michael Jordan but so did the Houston Rockets who also drafted Hakeem Olajuwon over MJ A knowledge of the PER methodology the author asserts would have created a better draft selection then as it clearly does now Heroes of the Hardcourt will finally lay to rest all the debates as to who the best players are in the history of professional basketball and who is the all time best
