O'Neill, 1985 *Resources in Education*, 2001-10 **Nuclear Power Reactor Development** Yoshiaki Oka, 2025-04-15 This book offers a comprehensive exploration of the history and development of power reactors worldwide from their inception to the present day. It provides an in-depth analysis of light water reactors and their global technology while also delving into the evolution of gas-cooled heavy water liquid metal-cooled aerospace and nuclear fusion reactors. By examining past advancements, this book equips readers with the insights necessary to apply lessons learned to future reactor development and utilization. Key concepts include the dominance of light water reactors in the global market, the progression of nuclear fuel cycle technologies, and the economic and political aspects of plutonium utilization. In Defense of the American Public School Arthur J. Newman, 1978-01-01 The fifties saw schools as purveyors of international Communism; the sixties attacked the public educational system as racist, mindless, and irrelevant; and the Bicentennial era calls the schools down for their failure to teach students fundamental academic skills. Professor Arthur Newman's book of readings reflects an idea clearly regarded as heretical in many circles: the idea that the American public school is not nearly so inadequate as many present-day critics insist. In order to aid the teacher to be the educator and the concerned citizen in evaluating the validity of such reproval, Newman has included a wide variety of material, both classic and recent, under the following heads: The Charge to the Public Schools; The Always Abundant Criticism; The Schools' Record in Academic Achievement; The Treatment of Minority Group Youngsters; Are the Schools Inflexible? Public School Teachers; Public Schools and Social Ills; A Critique of the Critics. Anyone disturbed about the state of American public education will appreciate Newman's celebration of the myriad strengths of our schools and will esteem the intelligent and responsible perspective he sets forth to evaluate today's criticism of U.S. schools.
