Top Movies Deal Returns:

Predicting Movie Success at the Box Office Barrie Gunter, 2018-02-20 This book explores the different factors that can influence a new movie's prospects at the box office. Looking at factors such as the production budget, distribution model, genre, stars, and audience reactions of films, Gunter asks how such aspects may reduce the uncertainties of success so common in the movie industry. The reader is taken on a journey through filmmaking factors that research suggests impact box office performance. While box office revenues represent only part of a movie's earning potential, Gunter highlights how theatrical performances remain central to what the movie business is about. The chapters illustrate how ticket sales are largely influenced by the production budget but also cultural differences and new movie platforms.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars (good), four stars (excellent), five stars (masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a précis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system, which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations: for viewing, recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e., animated, drama, sports, mystery, adventure, etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Dictionary of Film Finance and Distribution John W. Cones, 2013 This dictionary is an aid to anyone involved in seeking to finance a feature film project, especially independents. It covers terms used in film production and distribution, marketing, accounting, insurance, securities, corporate structures, and general financial arenas. All of the principal forms of feature film finance are covered, including studio distributors, production companies, lending institutions, co-financing, pre-sales, grants, foreign and passive investor financing, involving the sale of a security.
