*The Conscious Investor* John Price, 2010-10-26 An intriguing look at the full range of value methods brought together for the first time The biggest block to success in the stock market is unconscious investing or following the crowd without asking the right questions such as What is it really worth Even more fundamental is What rate of return can I confidently expect to get Without having the methods to answer these questions is like trying to sail a boat without a rudder The Conscious Investor covers each of the main methods used to calculate value or

return in the stock market along with descriptions of how and when to use them as well as their strengths and weaknesses. Interspersed throughout the methods are the timeless investment principles of Benjamin Graham and Warren Buffett. The book includes balance sheet methods, dividend discount methods, discounted cash flow methods, price ratio methods, and many others. Explains the significance of viewing real value as a combination of a stock's price or market value and its intrinsic value. Comes with free access to key functions in the author's Conscious Investor software. The Conscious Investor is indispensable reading for everyone with an interest in investing in the stock market from novices to experienced professionals. Using this book as your guide, you'll quickly discover what it takes to be a conscious investor and gain more confidence in knowing what and when to buy, when to hold, and when to sell. **PRACTICAL MONEY ADVICE FOR YOUNG MEN 2.0** Malik McCotter-Jordan, 2021-12-25. I'm not suggesting that you fire your boss or quit your job. In fact, I advise you to keep your job. In this book, I have a job that's called having more than one stream of income, and I talk about that in this book. This is definitely not a BS Tony Robbins personal finance book with over 680 pages about compound interest, him shamelessly promoting financial firms that he has an ownership stake in, and saving 10% to 20% of your income. This is a raw and real book written by a guy who is only a few steps ahead of you. That's it. I'm not a guru. This is not a scam. I put my heart and soul into making this. I wrote this book as if it was for the 18-year-old me. Anyone who leaves a review saying that this book lacks realistic, actionable advice is just plain wrong. I even did what most of these personal finance authors don't have the guts to do: I talk about my personal life and the mistakes I made that cost me thousands of dollars. That's why this genre is called personal finance, right? I get really personal. Some might say it's too personal. If you're a young man who is tired of being broke, living paycheck to paycheck, not owning any assets, being clueless about taxes, and not being able to get ahead in the United States, then this is the book for you. I started off as a poor black boy in a small town in Alabama. On section 8, I currently have a 6-figure net worth. If I can do it, you can too. Buy this book today.
