University Rankings, Diversity, and the New Landscape of Higher Education, 2019-02-18 University rankings are a relatively new phenomenon in higher education. Although quite an established practice in the U S it is only within the last decade that attempts to analyse university performance have spread to the rest of the world and that we also have seen new global rankings appear. Rankings attempting to measure university performance beyond national borders. No wonder that this trend is accompanied by a growing interest in studying rankings throughout the world. This book is written as part of the effort to better understand rankings and their effects on higher education. A serious approach towards university rankings implies that rankings should be analysed properly including the methods used and the indicators chosen and investigate the objectives claimed. If university rankings are considered as consumer information then everyone should have an interest in basing such guidance on valid and reliable data and methodology. A serious analysis should also discuss the wider implications of rankings as an emerging phenomenon in higher education. Consequently the contributions to this book investigate and analyse how different rankings work how they reach their conclusions and on what data and methodology they are built. Furthermore it provides a critical reflection about the impact of rankings on higher education how and in what way rankings influence policy making the structure of the sector or the internal life of the sector. **The Global Academic**

Rankings Game Maria Yudkevich, Philip G. Altbach, Laura E. Rumbley, 2016-03-02 The Global Academic Rankings Game provides a much needed perspective on how countries and universities react to academic rankings. Based on a unified case methodology of eleven key countries and academic institutions this comprehensive volume provides expert analysis on this emerging phenomenon at a time when world rankings are becoming increasingly visible and influential on the international stage. Each chapter provides an overview of government and national policies as well as an in depth examination of the impact that rankings have played on policy practice and academic life in Australia, Chile, China, Germany, Malaysia, the Netherlands, Poland, Russia, Turkey, the United Kingdom and the United States. The Global Academic Rankings Game contributes to the continuing debate about the influence of rankings in higher education and is an invaluable resource for higher education scholars and administrators as they tackle rankings in their own national and institutional contexts.
