Red Grange Chris Willis,2019-08-09 In celebration of the National Football League s 100th season noted football historian Chris Willis brings to life the story of Red Grange the nation s first NFL star in this definitive biography Harold Red

Grange became a national sensation as a junior halfback at the University of Illinois in the 1920s. He quickly joined other great athletes of the Roaring Twenties such as Bobby Jones, Jack Dempsey, and Babe Ruth in enthralled audiences on the radio and in newspapers on a daily basis. A year later the Galloping Ghost stunned the country by dropping out of school after his last collegiate game and going pro with the six-year-old NFL signing with the Chicago Bears. In *Red Grange: The Life and Legacy of the NFL's First Superstar*, Chris Willis tells the remarkable story of a humble football player who rose to fame in the 1920s and became an icon. With unlimited access and complete cooperation of the Grange family, Willis offers new insight into Grange's rags to riches story, including details about his tomboy mother who died when Grange was six years old and never before published information on Grange's barnstorming tour with the Chicago Bears that instantly gave credibility to the fledgling NFL. With over fifty original interviews, personal letters to and from Grange, and more than forty photos, this definitive biography reveals in intimate detail the life of a sports pioneer. Whether as a player, coach, broadcaster, pitchman, Hall of Famer, ambassador, or icon, Red Grange was and still is the face of the early NFL and one of the greatest athletes of all time.

Concussion Inc. Irvin Muchnick, 2015-02-01. Inside the most controversial issue in sports, traumatic brain injury in football is not incidental but an inevitable and central aspect of the sport. Starting in high school, through college, and into the NFL, young players face repeated head trauma, and those sustained injuries create lifelong cognitive and functional difficulties. Muchnick's *Concussion Inc.* blog exposed the decades-long cover-up of scientific research into sports concussions and the ongoing denial to radically reform football in North America. This compilation from Muchnick's no-holds-barred investigative website reveals the complete head injury story as it developed from the doctor who played fast and loose with the facts about the efficacy of the state-mandated concussion management system for high school football players to highly touted solutions that are more self-serving cottage industry than of any genuine benefit. Known for extensive reporting on the tragic story of the Chris Benoit murder-suicide, Muchnick turns his investigative analysis to traumatic brain injury and probes deep into the corporate government and media corruption that has enabled the 10-billion-a-year National Football League to trigger a public health crisis.

Race in American Sports James L. Conyers, Jr., 2014-05-21. These essays critically examine the issue of race in college and professional sports, beginning with the effects of stereotypes on black female college athletes and the self-handicapping of black male college athletes. Also discussed is the movement of colleges between NCAA designated conferences and the economic impact and effects on academics for blacks. An essay on baseball focuses on changes in Brooklyn during the Jackie Robinson years, and another essay on how the Leland Giants became a symbol of racial pride. Other essayists discuss the use of American Indian mascots, the Jeremy Lin spectacle surrounding Asians in pro sports, the need to hire more NFL coaches of color, and ideals of black male masculinity in boxing.
