“*Intention is not method, belief is not evidence*” Dr. Antje

Gansewig, 2023-01-21
For over 20 years school interventions involving former right wing extremists have been popular in Germany
In practice they are advertised and conducted as both civic education and extremism prevention
This book uses an evidence based and interdisciplinary approach to examine the potentials and challenges of this format
It provides a thematic embedding of German application a comprehensive review of attributed impact assumptions and the state of related research
Furthermore this research offers highly valuable unique and comprehensive insights based on empirical evidence
It thus contributes to a better understanding of the format and its complexity
Overall the findings give no clear indication that the involvement of former right wing extremists in schools initiate civic education processes or prevent political extremism
Rather the investigation found fundamental needs for additional research modification and sensitization
In this vein this book makes a pioneer contribution to quality assurance and evaluation research in civic education and extremism prevention
