When the Nerds Go Marching In Rachel K. Gibson, 2020-08-03 Digital technology has moved from the margins to the mainstream of campaign and election organization in contemporary democracies Previously considered a mere novelty item technology has become a basic necessity for any candidate or party contemplating a run for political office While it is difficult to pinpoint exactly when

the first digital campaign was officially launched the general consensus is that the breakthrough moment at least in terms of public awareness came during the 1992 U S election cycle At the presidential level it was Democratic nominee Bill Clinton who laid claim to this virtual terra nova after his staff uploaded a series of basic text files with biographical information for voters to browse Since that time use of the internet in elections has expanded dramatically in the U S and elsewhere When the Nerds Go Marching In examines the increasing role and centrality of the internet within election campaigns across established democracies since the 1990s Combining an extensive review of existing literature and comparative data sources with original survey evidence and web content analysis of digital campaign content across four nations the UK Australia France and the U S the book maps the key shifts in the role and centrality of the internet in election campaigns over a twenty year period Specifically Gibson sets out the case for four phases of development in digital campaigns from early amateur experimentation and standardization to more strategic mobilization of activists and voters In addition to charting the way these developments changed external interactions with citizens Gibson details how this evolution is transforming the internal structure of political campaigns Despite some early signs that the internet would lead to the devolution of power to members and supporters more recent developments have seen the emergence of a new digitally literate cohort of data analysts and software engineers in campaign organizations This group exercises increasing influence over key decision making tasks Given the resource implications of this new data driven mode of digital campaigning the book asserts that smaller political players face an even greater challenge to compete with their bigger rivals Based on her findings Gibson also speculates on the future direction for political campaigns as they increasingly rely on digital tools and artificial intelligence for direction and decision making during elections

Khan,2016-09-23 As part of the advocacy of the Asian Congress for Media and Communication ACMC to promote regional studies in global academic discourse this book contributes to a better understanding of social media within the context of Southeast Asian countries with the addition of Sri Lanka The contributors here are primarily Asian academics and practitioners immersed in the fields of media and communication Throughout the chapters the reader will discover that social media has changed the paradigm of communication in the region as an avenue for free expression as a tool for news gathering and news distribution as an aid in crime prevention and even as a means to find a lifelong partner For non Asian readers there is also an annex that provides a summary of social media statistics in the region to allow the countries mentioned in this book to be situated within the global context Malaysia Human Rights Report 2017 SUARAM,2018-06-12 Malaysian Human Rights Report 2017 SUARAM s Annual Human Rights Report on Malaysia is widely recognized as the most objective comprehensive and dependable source of information on the state of human rights in Malaysia It documents the human rights violations of all the fundamental liberties as well as the struggles of human rights defenders that take place in Malaysia during the year In 2017 Malaysia struggled with growing repression as the 14th General Election approached With the competition for political dominance freedom of expression became the victim and there was widespread arrest detention and prosecution for online comments made on social media and the silencing of print and online media using frivolous justifications Freedom of religion was another victim In the short five years since the abolition of the Internal Security Act 1960 the criminal justice system of Malaysia has re oriented its policy on tackling crime by the use of detention without trial With more than 2 000 individuals detained under SOSMA POCA POTA and DDA it is clear that we are seeing the old ISA in a new guise Beyond the politically motivated human rights violations corporations and state linked enterprises were also human rights violators State agencies which are expected to defend and protect the rights and interests of the community especially the indigenous peoples instead acted as defenders of the corporate interests With no justice or remedy in sight all that the communities could do was to stand and defend their rights and dignity by setting up blockades against the

repression **African Pasts, Presents, and Futures** Touria Khannous, 2013-10-17 *African Pasts Presents and Futures* Generational Shifts in African Women's Literature Film and Internet Discourse by Touria Khannous provides a history of African women's cultural production as well as an alternative approach to the arguments that have traditionally dominated post colonial studies in general and African and gender studies in particular It examines some of the more overarching questions that are prevalent in the works of African women authors who position themselves within the contexts of Islam feminism nationalism modernity and global and postcolonial politics thus engaging in the construction of socio political platforms for reform in their home countries The book explores different aspects of women's agency at the political cultural social religious and aesthetic level and highlights their civil society activism and push for legal reform It also traces their opinions on a range of social and political questions and underscores fundamental shifts in their positions and concerns through the different generations *Social Media Wellness* Ana Homayoun, 2017-07-27 Solutions for navigating an ever changing social media world Today's students face a challenging paradox the digital tools they need to complete their work are often the source of their biggest distractions Students can quickly become overwhelmed trying to manage the daily confluence of online interactions with schoolwork extracurricular activities and family life Written by noted author and educator Ana Homayoun *Social Media Wellness* is the first book to successfully decode the new language of social media for parents and educators and provide pragmatic solutions to help students Manage distractions Focus and prioritize Improve time management Become more organized and boost productivity Decrease stress and build empathy With fresh insights and a solutions oriented perspective this crucial guide will help parents educators and students work together to promote healthy socialization effective self regulation and overall safety and wellness Ana Homayoun has written the very book I've yearned for a must read for teachers and parents I have been recommending Ana's work for years but *Social Media Wellness* is her best yet a thorough well researched and eloquent resource for parents and teachers seeking guidance about how to help children navigate the treacherous ever changing waters of social media and the digital world Jessica Lahey New York Times Bestselling Author of *The Gift of Failure* This is the book I've been waiting for Ana Homayoun gives concrete strategies for parents to talk with their teens without using judgment and fear as tools This is a guidebook you can pick up at anytime and which your teen can read too I'll be recommending it to everyone I know Rachel Simmons New York Times Bestselling Author of *The Curse of the Good Girl* Read About Ana Homayoun in the news NYTimes *The Secret Social Media Lives of Teenagers* Pacific Standard *Holier Than Thou* IPO Snapchat and Effective Parenting Parenttoolkit.com Emojis Streaks Stories and Scores What Parents Need to Know About Snapchat Los Angeles Review of Books *Life and Death 2.0* When Your Grandmother Dies Online **Popular Music in a Digital Music Economy** Tim Anderson, 2013-12-17 In the late 1990s the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners The dovetailing of these two circumstances is the basis of a new mode of musical

production and distribution where new practices emerge This book is not a definitive statement about what the new music industry is Rather it is devoted to what this new industry is becoming by examining these practices as experiments dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings In this new economy constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial Finally every element of the industry now must consider a new type of audience the end user and their productive and distributive capacities around which services and musicians must orient their practices and investments

Inhuman Networks Grant Bollmer, 2016-08-11 Social media s connectivity is often thought to be a manifestation of human nature buried until now revealed only through the diverse technologies of the participatory internet Rather than embrace this view Inhuman Networks Social Media and the Archaeology of Connection argues that the human nature revealed by social media imagines network technology and data as models for behavior online Covering a wide range of historical and interdisciplinary subjects Grant Bollmer examines the emergence of the network as a model for relation in the 1700s and 1800s and follows it through marginal often forgotten articulations of technology biology economics and the social From this history Bollmer examines contemporary controversies surrounding social media extending out to the influence of network models on issues of critical theory politics popular science and neoliberalism By moving through the past and present of network media Inhuman Networks demonstrates how contemporary network culture unintentionally repeats debates over the limits of Western modernity to provide an idealized future where the human is interchangeable with abstract flowing data connected through well managed distributed networks
