Schwarz, 2014-01-02 A groundbreaking study of ten difficult years in the life of America's most important newspaper From false stories about weapons of mass destruction in Iraq to growing competition from online and twenty four hour cable news the first decade of the twenty first century was not particularly kind to the New York Times In this groundbreaking study of the recent life and times of America's most important newspaper Daniel R Schwarz describes the transformation of the Times as it has confronted not only its various scandals and embarrassments but also the rapid rise of the Internet and blogosphere

the ensuing decline in circulation and print advertising and the change in what readers want and how they want to get it. Drawing on more than forty one on one interviews with past and present editors including every living executive editor senior figures on the business and financial side and publisher Arthur Sulzberger Jr Schwarz discusses virtually every aspect of the contemporary Times from columnists to cultural coverage. He explains how in response to continuous online updating and twenty four hour all news radio and television the Times has become much more like a daily magazine than a traditional newspaper with increased analysis as opposed to reporting of the news as well as value added features on health travel investing and food. After carefully tracing the rise of the Times's website Schwarz asks whether the Times can survive as a print newspaper whether it can find a business model to support its vast print and online newsgathering operation and whether the Sulzberger family can survive as controlling owners. He also asks whether the Times in its desperate effort to survive has abandoned its quality standards by publishing what he calls Timeslite and Timestrash. Writing as a skeptical outsider and devoted lifelong reader Schwarz concludes that the Times is the worst newspaper in the world except for all the others. *Endtimes* is a must read for Times readers as well as anyone interested in the radical change in print and broadcast media in the rapidly evolving Internet Age. A balanced grappling with big issues and tumultuous changes in journalism and at The Times between 1999 and 2009. CHOICE Fascinating Schwarz raises many questions about the future of printed newspapers and about how Americans will stay informed about news. *Charleston Gazette Mail* *Endtimes* is a product of brain and heart passion for its subject yes but also clear eyed critique of that subject's strengths and weaknesses. *Huntsville Times* Schwarz is diligent in his research and his interviews. He puts the Times on the couch and gives us a very thorough psychoanalysis. *Washington Independent Review of Books* Struggling to maintain its journalistic preeminence in a world of accelerating change the New York Times has often stumbled but not yet fallen. Scrupulously researched judiciously argued and accessibly written *Endtimes* provides a sympathetically critical account of the Times's strengths and weaknesses as it responds to the economic technological cultural and political challenges of our day. No one alarmed by the threatened survival of quality journalism can afford to ignore this trenchant book. Martin Jay author of *The Virtues of Mendacity* On Lying in Politics. Daniel Schwarz's lucid well researched and passionate book reminded me of the saying that the best criticism comes from admirers who are willing to tell us our faults. Benefiting from his own extensive interviews with key players in the Times's story including Max Frankel Arthur Sulzberger Jr and Howell Raines Schwarz offers a complex judicious history of a prominent American cultural institution as it responds to a period of crises and turmoil in print journalism. Pulling no punches Schwarz laments the current version of the paper's fluff lack of gatekeeping and news judgment and failure to stand up to government. At the same time he appreciates how the Times remains after more than a century a preeminent source of information. This is a lover's quarrel at its best. Daniel Morris Purdue University. Dan Schwarz is a knowing reader and a master teacher. *Endtimes* shows that he is a great student of journalism as well. He takes us on a

roller coaster ride from the era of the New York Times's cultural ascendancy to the current financial crisis over its very existence And he looks into the Times's future too Everyone who cares about the news in America should read this book Barry Strauss author of *The Spartacus War* Dan Schwarz writes with terrific energy about an important subject the threat posed by today's flood of information to the integrity and even the existence of what is arguably the world's most influential newspaper Not every reader will agree with his criticisms of the paper's leadership or his prescriptions for its survival But every reader will be deeply informed and sharply challenged by his well documented narrative and his provocative argument Steven Knapp The George Washington University

**2016: the Campaign Chronicles** JD Foster, 2019-10-08 The 2016 campaign ended with Donald J Trump as president elect of the United States astounding just about everyone More than two dozen candidates had vied for the two parties nominations leaving Trump and former Secretary of State Hillary Clinton Her flaws standing in rough proportion to her strengths Clinton had been the presumed Democratic nominee though Bernie Sanders had nearly upended her run In contrast Trump's capturing the Republican nomination seemed preposterous before and after the fact The campaign overall was far more than the result It was a long tumultuous outrageous frolic of American politics The Campaign Chronicles was written contemporaneously with events as they happened so as to capture the sense of each amazing if horrific moment Even weeks after the election the country remained stunned by the outcome which as we learned foretold of a presidency unlike any before it But before the presidency there was a campaign about which many histories will be written But before the histories must come the chronicling history stripped of faded memories and coherent perspective Herewith such a chronicling written from a determinedly neutral posture presenting the good with the bad for all concerned
