School-Based Family Counseling for Crisis and Disaster Brian A. Gerrard, Emily J. Hernandez, Sibnath Deb, 2023-04-05
School Based Family Counseling for Crisis and Disaster is a practical handbook with a school based family counseling and interdisciplinary mental health practitioner focus that can be used to mitigate crises and disasters that affect school children. Anchored in the school based family counseling SBFC tradition of integrating family and school mental health interventions, this book introduces interventions according to the five core SBFC metamodel areas: school intervention, school prevention, family intervention, family prevention, and community intervention. The book has an explicit how to approach and covers prevention strategies that build student, school, and family resilience for handling stress and interventions that can be provided during and immediately after a disaster or crisis has occurred. The chapter authors of this edited volume are all experienced professors and/or practitioners in counseling psychology, social work, marriage and family therapy, teaching, and educational administration. All mental health professionals, especially school based professionals, will find this book an indispensable resource for crisis planning and developing a trauma sensitive school. *TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019)* U.S. Department of Health and Human Services, 2019-11-19
Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way. *Building a Recession-Proof Business: Strategies for Economic Resilience* Favour Emeli, 2025-01-15
