Each review page gives you a place to write product names, category, where you can purchase the product, appearance, and smell. There is also a place to add additional notes for each product. This is where you can put thoughts on taste for food and drink products. And the best part is that you get to rate each product by coloring in 1-5 pumpkins. This scripted open and go program from math educator Kate Snow will give you the tools you need to teach math with confidence even if it's been years since you learned these concepts yourself. Engaging hands-on lessons will help your child develop a strong understanding of math step by step: adding, subtracting, multiplying, and dividing decimals; adding and subtracting fractions with different denominators; multiplying and dividing fractions and mixed numbers; multi-step fraction and decimal word problems; solving measurement problems with fractions and decimals; line graphs and the coordinate plane; geometry and volume; mean and median. Your child will develop strong math skills and a positive attitude toward math with fun games and real-world applications. All you'll need are this Instructor Guide, the two Student Workbooks (Part A and Part B), and a few simple manipulatives like base ten blocks and fraction tiles to make math come alive for your child. Hands-on incremental lessons that steadily build conceptual understanding. Daily review to ensure children retain what they've learned and master essential skills. Step-by-step examples help your child develop math study skills and greater independence. Games and real-world applications make math fun and relevant. WHAT PARENTS ARE SAYING: Math with Confidence has made math the favorite subject in our homeschool. My kids love it and are learning the why behind every new skill they learn.
