STRENGTHEN YOUR PROFESSIONAL WRITING Dr. Samir Kumar Hui ,2025-04-23 **Rereading Musicians and Their Audiences** Tom Attah,Kirsty Fairclough,Christian Lloyd,2025-06-12 Using a radical and inclusive definition of the genre this collection explores musicians autobiographies as articulated in print on stage and through various expressive media as a dynamic factor in contemporary culture Popular musicians autobiographies are one of the most important ways that stars create negotiate and perpetuate the realities and myths of their lived experiences for fans Autobiographical creations such as Bruce Springsteen s book Born to Run Kendrick Lamar s lyrics ABBA s virtual Voyage show and the reimaginings of Lennon and McCartney s childhood homes have been both critically acclaimed and lucrative whilst delivering for many fans an apparent insider s understanding of musicians whose work they are invested in Yet such narratives have many other functions beyond thrilling their consumers with a sense of intimacy The pop music autobiographies discussed here variously attempt to rewrite social history to redress gender or racial stereotypes to question received models of fame to validate new genres and scenes to explore complex subjectivities to justify or atone for transgressive behaviour and to critique the music industry **Business and Society** Cynthia E. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which

students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM
