People employed at sites of precarious work such as call centres or retail warehouses often live precarious lives. Drawing on ethnographic research in a London hostel for precarious workers, the book explores the political, analytical, and practical limitations of using traditional methods of trying to make sense of life in these settings. Traditional methods are rooted in practices that emerge from privileged social positions, and their enactment is deeply entangled with the processes that create these conditions in the first place. This book responds to this by experimenting with precarious methods to enable greater agency to those placed in these precarious situations. — Digital Media Interventions in Southeast Asia Joanne B.
