Rankings and the Reshaping of Higher Education Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars **U.S. News: College Rankings** , Presents college rankings provided by U S News and World Report Contains a FAQ section Includes details about the methodology of the rankings the criteria and weights and the category definitions Offers rankings of the top national universities national liberal arts colleges specialty schools campus diversity and Midwestern northern and southern universities Provides a site search engine

Rankings and Accountability in Higher Education: Uses and Misuses Priscilla Toka Mmantsetsa Marope, Peter J. Wells, Unesco, Ellen Hazelkorn, 2013-01-01 The growing impact of university rankings on public policy and on students' choices has stirred controversy worldwide This unique volume brings together the architects of university rankings and their critics to debate the uses and misuses of existing rankings With voices from five continents it provides a comprehensive overview of current thinking on the subject and sets out alternative approaches and complementary tools for a new era of transparent and informed use of higher education ranking tables *Global University Rankings and the Mediatization of Higher Education* Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy **College and University Education in the United States** , *Rankings and the Reshaping of Higher Education* E.

Hazelkorn, 2011-03-08 University rankings have gained popularity around the world and are now a significant factor shaping reputation This book is the first comprehensive study of rankings from a global perspective making an important contribution to our understanding of the rankings phenomenon This book has also been published in Japanese *Monitoring the Health of U.S. Professional Athletes* Amadu Jacky Kaba, 2014-03-20 Monitoring the Health of US Professional Athletes examines the health status of professional athletes in the United States with a focus on the body mass index BMI of players in the National Basketball Association NBA and the Women's National Basketball Association WNBA for the 2005 2006 season The study presents demographic data of the players such as age height weight race nationality and academic institutions attended It also presents data on the salaries of the players Although public health scholars and medical doctors have cautioned that

professional athletes such as basketball and American Football players are more likely to have relatively high BMI due to their muscle mass the fact that 50 percent of the NBA players in this study have an average BMI that placed them in the overweight category shows that there is a prevalence of overweight players in the league The study discusses the implications of this for the health of the athletes and the game of basketball in general The Great Brain Race Ben Wildavsky,2012-08-26 Reveals how international competition for university students is impacting higher education and explains the benefits of this competition which allows students to choose from diverse educational settings and programs

Henderson,2016-02-08 Blazing new trails in the area of reporting and transparency Required and voluntary reporting of student data to external agencies has increased in volume quantity and complexity and understanding the scope of reporting requirements and the associated burden is critical to higher education practitioners This volume focuses on new directions in institutional reporting and the associated burden The convergence of increased reporting coupled with the demand to be more efficient with resources in a saturated and competitive higher education market make this a timely and needed volume for higher education administrators This is the 166th volume of this Jossey Bass quarterly report series Timely and comprehensive New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination information analysis program evaluation and institutional management **Research Handbook on University Rankings** Hazelkorn, Ellen,Mihut, Georgiana,2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact The Making of Lawyers' Careers Robert L. Nelson,Bryant G. Garth,Ronit Dinovitzer,Joyce S. Sterling,David B. Wilkins,Meghan Dawe,Ethan Michelson,2023-10-03 How do hierarchies of race class gender and law school status condition the career trajectories of lawyers And how do individual lawyers strategically navigate the constraints and opportunities of their environments Where do they find professional satisfaction This book offers an unprecedented account of opportunity structures and social stratification within the early 21st century American legal profession combining unique longitudinal survey data with interviews storytelling and insights

from social theory Starting in 2000 the authors collected over 10 000 survey responses from more than 5 000 lawyers following these lawyers through the first twenty years of their careers They also conducted in depth interviews with more than 200 lawyers They contextualize their findings through attention to the features of a market driven legal profession in particular the growth in recent decades of the private sector relative to the public sector and corresponding disparities in earnings and status between these different segments The analysis in this book reveals a legal profession that is highly stratified Although individual lawyers exercise agency and often find satisfaction in their work there are deep divisions within the profession by client type and practice setting and women and attorneys of color face discrimination and persistent barriers to advancement The careers of lawyers both reflect and reproduce inequalities in law and society writ large *The Best 384 Colleges, 2019 Edition* The Princeton Review, Robert Franek, 2018-09-18 Make sure you re preparing with the most up to date materials Look for The Princeton Review s newest edition of this book *The Best 385 Colleges 2020 Edition* ISBN 9780525568421 on sale August 2019 Publisher s Note Products purchased from third party sellers are not guaranteed by the publisher for quality or authenticity and may not include access to online tests or materials included with the original product

Breaking Ranks Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America s colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality
