Hill, 2018-07-10 It has been more than fifty years since the Civil Rights Act enshrined equality under the law for all Americans Since that time America has enjoyed an era of unprecedented prosperity domestic and international peace and technological advancement It's almost as if removing the shackles of enforced racial discrimination has liberated Americans of all races and ethnicities to become their better selves and to work toward common goals in ways that our ancestors would have envied But the dominant narrative repeated in the media and from the angry mouths of politicians and activists is the exact opposite of the reality They paint a portrait of an America rife

with racial and ethnic division where minorities are mired in a poverty worse than slavery and white people stand at the top of an unfairly stacked pyramid of privilege Jason D Hill corrects the narrative in this powerfully eloquent book Dr Hill came to this country at the age of twenty from Jamaica and rather than being faced with intractable racial bigotry Hill found a land of bountiful opportunity a place where he could get a college education earn a doctorate in philosophy and eventually become a tenured professor at a top university an internationally recognized scholar and the author of several respected books in his field Throughout his experiences it wasn't a racist establishment that sought to keep him down Instead Hill recounts he faced constant naysaying from so called liberals of all races His academic colleagues did not celebrate the success of a black immigrant but chose to denigrate them because this particular black immigrant did not embrace their ideology of victimization Part memoir part exhortation to his fellow Americans and above all a paean to the American Dream and the magnificent country that makes it possible *We Have Overcome* is the most important and provocative book about race relations to be published in this century
