Hulu In The Us Returns:

The Return of Gloria Jessie A. Davidson, 1926 Television Goes Back to the Future Anthony N. Smith, Laura Minor, 2025-11-08 This book examines the extent to which the practices of television's past are shaping its online future. Challenging industry and scholarly claims of digital disruption, it demonstrates how streaming giants like Netflix, Disney, and Amazon Prime Video alongside public service broadcasters like the BBC and Channel 4 maintain deep continuities with television history, adapting established industry practices online rather than abandoning them. The authors look at how media institutions have applied conventional broadcast television practices around live transmissions, linear scheduling, commercial interruption, and episode release cadences to streaming platforms; how narrative and genre norms continue to underpin American television drama and British TV sitcoms in online contexts; and how globalised streaming services cultivate country-specific programming and retain close ties to traditional practices of national broadcasting systems in South Korea.

Return on Courage Ryan Berman, 2019-01-15 Unlock Courage. What do an astronaut, a Navy SEAL, the cofounder of Method, the former VP of communications at Apple, and the president of Domino's all have in common? Ryan Berman spent three years shadowing the most courageous people and leaders on the planet to find out what they have done to accomplish liberating personal or business feats. Fifty-two percent of Fortune 500 companies from the year 2000 are now extinct, and 80 percent of all start-ups will fail within their first 18 months. Yet there's a lack of urgency to address this callous reality across the board in most organizations. And the solution can be unlocked with courage. *Return on Courage* ROC is the go-to courage instructional manual that helps readers attack and shrink business fears head-on. They will learn how to relentlessly play offense, drive change, and transform into a Courage Brand. ROC can be the secret weapon to innovating new products and services, maximizing ROI, and revolutionizing their industry.

Sorcerous Sea Carol Severance, 2014-04-01 War is a distant memory on the island, and life should be returning to the former days of calm and abundance. Yet evil is spreading throughout the land, leaving disturbances and distress in its wake. People are reporting that they have seen strange sights out upon the water. Children are missing from the islands and also from the mainland while hungry sharks in search of food swim closer to land than ever before. What is upsetting the delicate balance of the land and the sea? Iuti Mano, kinswoman of the sharks, is beginning to suspect that her violent history is catching up with her. She has killed the god of the sharks in order to free herself, but now with her beloved children joining the ranks of the missing, she must fight to restore that which she had most wanted to slay.
