Max Streaming Google Maps Near Me:

The Double Cousins and the Mystery of the Sod Schoolhouse Miriam Jones Bradley, 2020-10-20 Had it really been only a year since the Double Cousins solved their first mystery But now back at Grandpa s ranch for their summer visit it seemed something was missing one of those exciting mysteries For the first time in a year they were all together again and the time was slipping by with no mystery If this was the new normal they didn t like it very much Then out of the blue strangers arrive at the ranch and drop a mystery right into their laps shocking even Grandpa with ranch history he had never heard The Happy Hollow school property was originally part of Grandpa s land Had the first one been a sod building Can they fulfill the dream of a centenarian by recovering its history and against all odds find the tiny time capsule hidden by two young boys over 120 years ago And can they put up with an annoying visitor who doesn t like the ranch or anything on it In the seventh Double Cousins Mystery the cousins including Brandon use all their sleuthing skills along with some new ones to help that family of strangers find the answer to their mystery and in the process they learn that mysteries truly are a part of history

ShakeCast Loren L. Turner, David Jay Wald, Kuo-wan Lin, 2009 Following a major earthquake one of Caltrans most critical tasks is to assess the condition of all potentially impacted bridges and roadway corridors in the state highway system Timely response is important to ensure public safety guide emergency vehicle traffic and re establish critical lifeline routes In the past bridge inspection teams had difficulties setting priorities immediately following an earthquake because they lacked precise information about where the worst shaking and most likely the greatest damage had occurred In 2005 Caltrans initiated a contract with the United States Geological Survey USGS to develop and implement a Caltrans specific version of their ShakeCast system a post event software analysis tool that was anticipated to change the way Caltrans responds following a major earthquake ShakeCast is a web based application that automatically retrieves measured earthquake shaking data analyzes it against individual bridge performance characteristics and generates inspection prioritization emails and other web based products for emergency responders within minutes of an event Benefits have already been realized over the course of the test deployment phase The ShakeCast system has proved to be a valuable tool for post earthquake response for Caltrans during real events as well as for scenario planning exercises
