Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson,2020-08-18 Meal prepping is making a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next time you've learned mini meal prepped Granted though meal prepping refers to making 3-7 days worth of food at a time Think of it like making your lunches for the week all at once instead of making your lunch every day You can use this same technique for breakfast lunch dinner and snacks Meal prepping involves no waste and results in time to do other things outside of the kitchen whether that's planning a diet or a budget When making your meal plan the first question to ask is how many meals you'll eat each day without having to cook each day or reheat Meal prep is not for everyone It is good for people who value convenience and free more time than they spend in the kitchen With meal prepping you generally eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious food while maximizing your time and budget is important to you then trying something different every day meal prep is a great idea I've generally not seen meal prepers or maybe one other person do a whole meal Meal prep for a whole family would be quite difficult but for a small family it would be a great idea If food is stored in the refrigerator for a long time it can become stale In addition to the way food is packed the individual nuances of your refrigerator can impact the quality of your refrigerated meals The length of time the food is acceptable to eat and the texture and flavor will be affected by the refrigerator Always begin with the refrigerator guidelines but the FDA and then consult them against your own preferences In general I don't think it's more than a few days worth of food you'll be able to find that's that fresh food you'll be able to find to enjoy
