Applying powerful behavioral finance concepts, Stop Think Invest provides a framework for identifying personal biases and avoiding mistakes that can cost big profits. Based on the author's extensive research and 100 key behavioral finance concepts, this guide provides a winning 12-step process you can use to successfully manage your trading and investing for long-term success, including: Begin the initial research into a new stock; Create an investment thesis: why are you buying the stock? Trade timing and size: when are you buying and how much? Make the initial purchase; Review the trade: round up or round down? Test your original investment thesis. Stop Think Invest reveals critical information about behavioral finance flaws such as anchoring, confirmation bias, recency bias, and loss aversion. Unlike other behavioral investing guides, Stop Think Invest offers a fully organized and practical approach to applying behavioral finance to everyday investing. **Bilychnis**, 1920
