Digital Data Collection and Information Privacy Law Mark Burdon, 2020-04-23 In *Digital Data Collection and Information Privacy Law* Mark Burdon argues for the reformulation of information privacy law to regulate new power consequences of ubiquitous data collection Examining developing business models based on collections of sensor data with a focus on the smart home Burdon demonstrates the challenges that are arising for information privacy's control model and its application of principled protections of personal information exchange By reformulating information privacy's primary role of individual control as an interrupter of modulated power Burdon provides a foundation for future law reform and calls for stronger information privacy law protections This book should be read by anyone interested in the role of privacy in a world of ubiquitous and pervasive data collection

Future Law Edwards Lilian Edwards, 2020-03-02 How will law regulation and ethics govern a future of fast changing technologies Bringing together cutting edge authors from academia legal practice and the technology industry *Future Law* explores and leverages the power of human imagination in understanding critiquing and improving the legal responses to technological change It focuses on the practical difficulties of applying law policy and ethical structures to emergent technologies both now and in the future It covers crucial current issues such as big data ethics ubiquitous surveillance and the Internet of Things and disruptive technologies such as autonomous vehicles DIY genetics and robot agents By using examples from popular culture such as books films TV and Instagram including *Black Mirror* *Disney Princesses* *Star Wars* *Doctor Who* and *Rick and Morty* it brings hypothetical examples to life And it asks where law might go next and to regulate new phase technology such as artificial intelligence smart homes and automated emotion recognition

Springer Handbook of Internet of Things Sébastien Ziegler, Renáta Radócz, Adrian Quesada Rodriguez, Sara Nieves Matheu Garcia, 2024-10-21 This handbook is an authoritative comprehensive reference on Internet of Things written for practitioners researchers and students around the world This book provides a definitive single point of reference material for all those interested to find out information about the basic technologies and approaches that are used to design and deploy IoT applications across a vast variety of different application fields spanning from smart buildings smart cities smart factories smart farming building automation connected vehicles and machine to machine communication The book is divided into ten parts each edited by top experts in the field The parts include IoT Basics IoT Hardware and Components Architecture and Reference Models IoT Networks Standards Overview IoT Security and Privacy From Data to Knowledge and Intelligence Application Domains Testbeds and Deployment and End User Engagement The contributors are leading authorities in the fields of engineering and represent academia industry and international government and regulatory agencies

Foundations of Nursing in the Community - E-Book Marcia Stanhope, Jeanette Lancaster, 2013-10-15 With concise focused coverage of community health nursing *Foundations of Nursing in the Community Community Oriented Practice* 4th Edition provides essential information for community practice from nursing roles and care settings to vulnerable population groups

The book uses a practical community oriented approach and places an emphasis on health promotion and disease prevention. Practical application of concepts is highlighted throughout the text in case studies, critical thinking activities, QSEN competencies, and Healthy People 2020 objectives. Evidence Based Practice boxes highlight current research findings, their application to practice, and how community public health nurses can apply the study results. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels to reinforce the concept of prevention as it pertains to community and public health care. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. Clinical Application scenarios offer realistic situations with questions and answers to help you apply chapter concepts to practice in the community. Case Studies provide client scenarios within the community public health setting to help you develop assessment and critical thinking skills. What Would You Do boxes present problem solving challenges that encourage both independent and collaborative thinking required in community settings. How To boxes offer specific instructions on nursing interventions. NEW QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. NEW Feature box on Linking Content to Practice highlights how chapter content is applied in the role of public community health nursing. NEW Healthy People 2020 objectives in every chapter address the health priorities and emerging health issues expected in the next decade.
