The practice of medicine is immersed in issues of life death and suffering in relation to the mortal body Because of this the medical profession is a fertile arena for folklore that serves to address these topics among physicians In The Medical Carnavalesque Lisa Gabbert argues that this extraordinarily difficult work context has led to the development of an occupational corpus of folklore backstage talk and humor that she calls the medical carnavalesque Gabbert argues that suffering is not only something experienced by patients but that the organization practice and ethos of medicine can induce suffering in physicians themselves Featuring topics such as the institutionalized nature of physician suffering death related humor and talk stories about patient bodies and parodies of medical specialties The Medical Carnavalesque shows us how the culture of contemporary medicine uses travesty humor and inversion to address the sometimes painful and often transgressive aspects of doctoring The Medical Carnavalesque connects patient and physician suffering to laughter acknowledges suffering as an essential component of life and constitutes a way in which some physicians address the core philosophical and existential issues with which they regularly engage as they go about their daily work Religion and Politics in Swaziland R. Simangaliso Kumalo,2013-01-01 The author offers a candid reflection on the interface between politics and religion in Swaziland by reflecting on the works of Joshua Mzizi The strength of the book lies in the fact that the author a public theologian gives insight into the bigger story the interface between politics and religion in Africa

between an exploiting billionaire class and the working class which actually produces the goods and services in society Class struggle unionism looks at the employment transaction as inherently exploitative While workers create all wealth in society the outcome of the wage employment transaction is to separate workers from that wealth and create the billionaire class From that simple proposition flows a powerful and radical form of unionism Historically class struggle unionists placed their workplace fights squarely within this larger fight between workers and the owning class Viewing unionism in this way produces a particular type of unionism which both fights for broader class issues but is also rooted in workplace based militancy Drawing on years of labor activism and study of labor tradition Joe Burns outlines the key set of ideas common to class struggle unionism and shows how these ideas can create a more militant democratic and fighting labor movement
