Widow's Walk Susan Slater, 2022-04-07 Dan and Elaine Mahoney are finally settled in St Augustine Florida and Elaine has her brand new private investigator's license plus a job offer with a prestigious law firm So it's with some excitement that she talks to her first client a young man whose mother recently died Rick Elliston is convinced that her fall from the fourth floor widow's walk of their luxurious home was not suicide as the police seem to think He's convinced that his step father pushed her There was a big insurance policy Elaine's challenge is to find the evidence and the only problem is that there is none Dan meanwhile has been sent out to look over a sailing schooner that his company United Life Casualty has insured and it turns out the owner of the business that offers sunset tourist cruises is none other than Hank Beaufort step father of Elaine's client And Dan really likes the guy he just doesn't seem like a man who would kill his wife At first As both of them dig into their cases a whole new set of facts come out There was marital straying the luxury mansion was mortgaged to the hilt and Hank needs money for his newest business scheme It's a tangled web indeed complicated by the inescapable fact that a hurricane is bearing down on the Florida coast Can Dan and Elaine figure it out before the storm makes their jobs that much harder Praise for Susan Slater's Dan Mahoney series Dan Mahoney is an appealingly resilient character a welcome addition to the roster of sleuths that make the Southwest a hotbed of current mystery fiction Publishers Weekly Flash Flood is just what it sounds like a fresh surprising adrenaline rush whitewater ride It's also funny Susan Slater can flat out write Don Winslow New York Times bestselling author of The Cartel There'll be much much more with whispers of everything before Slater closes out this lively surprising case first of a series Kirkus Reviews

Succeed In Software Sean Cannon, 2023-01-05 Attention coders Are you earning less than 300 000 per year as a software engineer Have you been grinding away as a junior or mid level developer for too long and the promotions aren't coming Have you recently completed a coding boot camp and now you're in the deep end with no clear direction on how to advance your career This book can help you master the skills necessary to stand out at the top of our field While you wait for your next annual review you are helping to make your executive team rich while they pay you an entry level salary and consider you nothing more than a replaceable cog in the machine Over the past 20 years working as a software professional I have been collecting extremely valuable lessons that have helped me become one of the highest paid most reliable developers in my network I no longer worry about money I no longer work overtime and instead of competing with my peers for promotions I now have companies competing with each other for my time and skillset You don't need a college degree and you don't need to master a bunch of programming languages or become an expert at all the new libraries and frameworks to get where I am That is a waste of time and money and all you are doing is helping other people realize their goals instead of realizing your own The career ladder is simply a

game of profits and resources and once you learn and understand how the people above you perceive value and who your clients really are you will soar past your colleagues If you don't want to spend years crawling your way to the top on your own like I did working twice as hard as everybody else just to get noticed for promotions then let me help you cut those years or even decades off that journey it's time to take control of your software career and kick it into high gear right now
