The Discursive-Digital Link Ehsan Dehghan, 2025-08-22 We are in a state of crisis Democracy is under threat authoritarian politics are on the rise and digital media once heralded as emancipatory technologies are increasingly implicated in democratic erosion The Discursive Digital Link offers a critical framework for understanding the entangled relationships between discourse digital media and the hidden dynamics behind antagonism and polarisation The Discursive Digital Link presents a fluid social ontology that theorises how discourses and digital communication technologies are inseparably entangled and how this entanglement contributes to the formation of complex hierarchical relations Drawing on discourse theory and new materialist perspectives Dehghan maps how the various components of the discursive digital link users collectives identities the medium s design underlying neoliberal capitalist logics and structural power dynamics together shape antagonistic frontiers in digital spaces Through detailed case studies across multiple digital media Dehghan demonstrates how these entanglements manifest through different articulatory logics that could transform societies towards either agonistic progress or disastrous polarisation By revealing the logics of

discursive digital alliances and active passivity Dehghan provides critical insights for academics activists and anyone seeking to foster progressive togetherness The Discursive Digital Link offers a powerful theoretical framework and methodology for analysing digitally mediated communication It challenges monolithic understandings of polarisation technological solutionism and symptom focused approaches instead advocating for radical structural interventions across all entangled components of the discursive digital link a necessary shift in both academic research and progressive political strategy to address the democratic crises of our time

Digital Indonesia Elisa Linseisen, Wening Udasmoro, Dewi Candraningrum, dkk., The book Digital Indonesia Inclusion and Equality in Gender Sexuality Religion Ecology and Disability brings together insightful contributions from academics researchers and social activists from Indonesia Malaysia and Germany all connected through the DAAD Deutscher Akademischer Austauschdienst The German Academic Exchange Service network This book explores the intersection of digital media technology and emancipatory activism highlighting its potential to foster empowerment and create inclusive spaces particularly for marginalised individuals and communities At the same time it critically examines the paradox of digital platforms While they offer a sense of freedom within participatory culture they also embed subtle mechanisms of control through technological inscriptions and platform algorithms This dual nature of the digital realm presenting both opportunities and challenges can further entrench marginalisation and discrimination against already vulnerable groups in society The chapters in this book adopt an intersectional approach drawing from media and cultural studies digital humanities religious studies gender studies sociology literature and ecology With a particular focus on social inclusion and empowerment in Indonesia s digital era the book provides comprehensive discussions of digital inclusion and digital activism particularly concerning gender sexuality religion ecology and disability The discussions are structured into three thematic clusters Digital Activism Digital Inclusion Caring for the Land and Ecology Mediating Minorities and the Politics of Visibility and Identity Politics and Activism in the Digital Space Additionally the book includes a reflective section that delves into the notion of Application s and Algorithmic Anxiety and the Institutionalised Luxury Lifestyle Ecosystem in Indonesia

law to three growing areas of concern it covers 1 racist speech 2 cyberharassment cyberstalking and 3 the sending of abusive messages online It then turns to examine the latest attempts by UK officials to tackle these issues through the implementation of the Online Safety Act 2023 and France s Germany s and India s attempts to regulate social media The book will be of interest to researchers in the field of criminal law and cyber law as well as online abuse harassment and discrimination
