Ceremony and Civility Barbara A. Hanawalt,2017 Medieval London like all premodern cities had a largely immigrant population only a small proportion of the inhabitants were citizens and the newly arrived needed to be taught the civic culture of the city in order for that city to function peacefully Ritual and ceremony played key roles in this acculturation process In Ceremony and Civility Barbara A Hanawalt shows how in the late Middle Ages London s elected officials and elites used ceremony and ritual to establish their legitimacy and power In a society in which hierarchical authority was most commonly determined by inheritance of title and office or sanctified by ordination civic officials who had been elected to their posts relied on rituals to cement their authority and dominance Elections and inaugurations had to be very public and visually distinct in order to quickly communicate with the masses the robes of office needed to distinguish the officers so that everyone would know who they were The result was a colorful civic pageantry Newcomers found their places within this structure in various ways Apprentices entering the city to take up a trade were educated in civic culture by their masters Gilds similarly used rituals oath swearing and distinctive livery to mark their members belonging But these public shows of belonging and orderly civic life also had a dark side Those who rebelled against authority and broke the civic ordinances were made spectacles through ritual humiliations and public parades through the streets so that others could take heed of these offenders of the law An accessible look at late medieval London through the lens of civic ceremonies and dispute resolution Ceremony and Civility synthesizes archival research with existing scholarship to show how an ever shifting population was enculturated into premodern London Dumbarton Oaks Studies ,1950 Planning for Rites and Rituals Andrew R.
