Dubious Gastronomy Robert Ji-Song Ku, 2013-12-31 California roll Chinese take out American made kimchi dogmeat monosodium glutamate SPAM all are examples of what Robert Ji Song Ku calls dubious foods Strongly associated with Asian and Asian American gastronomy they are commonly understood as ersatz depraved or simply bad In *Dubious Gastronomy* Ku

contends that these foods share a spiritual fellowship with Asians in the United States in that the Asian presence be it culinary or corporeal is often considered watered down counterfeit or debased manifestations of the real thing The American expression of Asianness is defined as doubly inauthentic as insufficiently Asian and unreliably American when measured against a largely ideological if not entirely political standard of authentic Asia and America By exploring the other side of what is prescriptively understood as proper Asian gastronomy Ku suggests that Asian cultural expressions occurring in places such as Los Angeles Honolulu New York City and even Baton Rouge are no less critical to understanding the meaning of Asian food and by extension Asian people than culinary expressions that took place in Tokyo Seoul and Shanghai centuries ago In critically considering the impure and hybridized with serious and often whimsical intent Dubious Gastronomy argues that while the notion of cultural authenticity is troubled troubling and troublesome the apocryphal is not necessarily a bad thing The dubious can be and is often quite delicious Dubious Gastronomy overlaps a number of disciplines including American and Asian American studies Asian diasporic studies literary and cultural studies and the burgeoning field of food studies More importantly however the book fulfills the critical task of amalgamating these areas and putting them in conversation with one another Written in an engaging and fluid style it promises to appeal a wide audience of readers who seriously enjoys eating and reading and thinking about food
