essentially making you the bank You are not a landlord and do not own the property yet so you do not need to do any maintenance or physical labor to flip it for profit like a hard real estate investment requires Instead you collect the mortgage payments and enjoy the monthly passive income for the duration of the note But what happens when the note is not performing You can still make money there and in some cases more than you would if you bought the loan that has a faithful borrower There are several considerations you need to review before you dive into an investment this size Once you have done your due diligence and developed a strategy for success you can expect to see returns on your investment up to 20% in as little as a few months When you are playing with the big numbers this can mean some serious income for you It is not easy finding these notes to buy or working with borrowers sometimes so make sure to commit to memory the phrases and tips outlined in this book to make the interactions and processes smooth and effective In the chapters of this book enjoy learning the secrets note investors live by to create a wealth that boosts their bank accounts immediately and over time you can achieve this with less effort than a traditional real estate investment requires Highlights of the book include A brief overview of exactly what a mortgage note is and how it is sold Strategize how to invest in notes for the largest return options How to make money from non performing liens by making sound investments and clever strategies Discover how to buy notes and who sells them A unique return calculator you can use to determine the profit potential of a note quickly and also help determine the action you would take to exit the investment Confront the challenges of investing in notes by understanding the concerns and how you can mitigate your risk for the best and highest yield Determine if investing in commercial real estate notes is for you by learning about the different nuances and similarities with residential notes Reference if a state you are considering investing in is a judicial or non judicial state to help you identify the time it would take for you to see a return on your investment during the foreclosure process Recognize the difference between investing in a rental property and in a mortgage note You will be surprised at how attractive the note is compared to a hard asset Learn the difference between buying a junior lien and a senior lien and how to make either work for you And much much more
