Science Experiments Venmo In The Us:

Money Talks Nina Bandelj, Frederick F. Wherry, Viviana A. Zelizer, 2020-06-09 The world of money is being transformed as households and organizations face changing economies and new currencies and payment systems like Bitcoin and Apple Pay gain ground What is money and how do we make sense of it Money Talks is the first book to offer a wide range of alternative and unexpected explanations of how social relations emotions moral concerns and institutions shape how we create mark and use money This collection brings together a stellar group of international experts from multiple disciplines sociology economics history law anthropology political science and philosophy to propose fresh explanations for money s origins uses effects and future Money Talks explores five key questions How do social relationships emotions and morals shape how people account for and use their money How do corporations infuse social meaning into their financing and investment practices What are the historical political and social foundations of currencies When does money become contested and are there things money shouldn t buy What is the impact of the new twenty first century currencies on our social relations At a time of growing concern over financial inequality Money Talks overturns conventional views about money by revealing its profound social potential

Surveillance State Josh Chin, Liza Lin, 2022-09-06 Where is the line between digital utopia and digital police state Surveillance State tells the gripping startling and detailed story of how China s Communist Party is building a new kind of political control shaping the will of the people through the sophisticated and often brutal harnessing of data It is a story born in Silicon Valley and America s War on Terror and now playing out in alarming ways on China s remote Central Asian frontier As ethnic minorities in a border region strain against Party control China s leaders have built a dystopian police state that keeps millions under the constant gaze of security forces armed with AI But across the country in the city of Hangzhou the government is weaving a digital utopia where technology helps optimize everything from traffic patterns to food safety to emergency response Award winning journalists Josh Chin and Liza Lin take readers on a journey through the new world China is building within its borders and beyond Telling harrowing stories of the people and families affected by the Party s ambitions Surveillance State reveals a future that is already underway a new society engineered around the power of digital surveillance
