Pension Reform In Six Countries What Can We Learn From Each Other:

Pension Reform in Six Countries Axel H. Börsch-Supan, Meinhard Miegel, 2012-12-06 Axel Börsch Supan and Meinhard Miegel The provision of retirement income is a dynamic system that needs to be adapted constantly to the ever changing economic and societal environment Sometimes incremental adaptations suffice sometimes however larger reform steps are necessary We see this evolutionary process both through history and across countries Over and over again societies are confronted with new challenges not the least with respect to old age social security At this juncture of history almost all industrialized countries face rapid population aging and need to adapt their pension systems to this historically unprecedented demographic change The six countries in this study Chile Germany Great Britain the Netherlands Switzerland and the United States have responded very differently to this new challenge This is the point of departure for this book Why did the countries respond so differently What can we learn from each other It is not the point of this book to provide a universally optimal solution to the pension problems caused by population aging The six countries are simply too different in terms of their demographic and cultural and in particular in terms of their historical and economic backgrounds However since national discussions tend to be surprisingly narrowly focussed even in times of globalization there is much to learn by looking over the neighbor's fence And since some countries have reformed earlier than others we even have the benefit of quite a few trials and errors in one country from which all other countries can learn [Pension Reform in Six Countries](#) Axel H. Börsch-Supan, 2001-03-27 Reviews developments in pensions in Chile Germany Netherlands Switzerland the UK and USA in the period 1960 1996 with projections to the year 2050 Compares the multi pillar pension systems and respective contribution and replacement rates population ageing and reform options **Welfare State Change in Leading OECD Countries** Ingmar Schustereder, 2010-05-30 Ingmar J Schustereder investigates the relative influence of economic globalization and post industrial developments as drivers behind recent welfare state change and examines to what extent different national systems of social protection have preserved their core institutional features over time [Ideas and Welfare State Reform in Western Europe](#) P. Taylor-Gooby, 2005-08-02 The new welfare settlement in Europe involves a re direction of policy in the context of a unified market and currency system and of more stringent economic competition Realignment of the policy assumptions and goals of the key actors is central to this process This book reviews the main policy paradigms and analyzes the processes whereby they have changed in the most salient policy areas and is based on recent interviews with more than two hundred and fifty senior policy actors in seven West European countries [The Handbook of West European Pension Politics](#) Ellen, M.
