Now that you have completed the three-part reconciliation process, you are ready to prepare the end of month ending statement. The purpose of this end of month ending is to transfer the totals from the general journals to the appropriate general ledger accounts so that the balances of those ledger accounts reflect all of the transactions that occurred throughout the period.

Source: *Author's calculations*.

- 2.3. Total the remaining columns in the special journals. Record the amounts in the Total row of each journal.
- 2.4. Post the totals of the remaining columns in the special journals to their corresponding ledger accounts. To confirm that the posting has been performed, a posting reference is recorded in the last row of the special journals. If the total of a column is not required to be posted, the total is marked as 0 in the post reference line for that column.
- 2.5. Record the first unadjusted balance of each ledger account in the Unadjusted Balance row of each ledger. Enter the balance with a balance of zero. Although each ledger account has a starting balance, the Unadjusted Balance row must still be filled out in order to record the opening entry.
