Person-Centered Psychotherapies

David J. Cain

Person Centered Psychotherapies Theories Of Psychotherapy

Mick Cooper, Maureen O'Hara, Peter F. Schmid

Person Centered Psychotherapies Theories Of Psychotherapy:

Person-centered Psychotherapies David J. Cain, 2010 In *Person Centered Psychotherapies* David J Cain discusses the history theory research and practice of this seminal approach whose basic premises have influenced the practice of most therapeutic systems Person centered therapy also called client centered therapy was created by Carl Rogers almost 70 years ago In polls of psychotherapists conducted in 1982 and 2007 Carl Rogers was voted the most influential psychotherapist in history His original approach gave rise to a number of variations on the original all of which may be classified as person centered psychotherapies because of their basis in Rogers core therapeutic conditions of empathy unconditional positive regard and congruence This model emphasizes the client therapist relationship focusing on how the quality of moment to moment engagement between therapist and client can create optimal conditions for client growth Person centered therapies view clients as resourceful persons capable finding their own directions and solutions for their problems and a fundamental value of the person centered therapist is to honor and preserve the client s autonomy and choice In this book Dr Cain presents and explores person centered psychotherapy its theory history therapy process primary change mechanisms the empirical basis for its effectiveness and contemporary developments that have refined theory and expanded how it may be practiced In recent years dialogical experiential existential and expressive creative influences have been integrated in practice This essential primer amply illustrated with case examples featuring diverse clients is perfect for graduate students studying theories of therapy and counseling as well as for seasoned practitioners interested in understanding how it has evolved in recent decades

Theories of Counseling and Psychotherapy Elsie Jones-Smith, 2019-12-18 A step forward from the traditional textbook on counseling theories *Theories of Counseling and Psychotherapy An Integrative Approach* offers students a comprehensive overview of past and current approaches to psychotherapy and counseling with a modern approach to theories of psychotherapy An extensive array of mainstream theories as well as contemporary approaches such as narrative feminist LGBT and post modern are covered Author Elsie Jones Smith helps readers to construct their integrated approach to psychotherapy by learning how to develop a broad range of therapeutic expertise to meet the needs of a culturally diverse clientele In addition to listing and describing theories this text compares and contrasts them to show their strengths and weaknesses The Third Edition includes a new chapter on trauma informed counseling psychotherapy and provides updated references sections and studies reflecting the latest developments within the helping professions Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides

Client-Centered Therapy and the Person-Centered Approach Ronald F. Levant,John M. Shlien,1984-10-15 an important contribution to the current literature on a person centered approach It demonstrates the increasingly broad and dynamic application of this perspective to a variety of fields The Family Psychologist Featuring 21 papers by important contributors from academia and clinical practice this volume examines the major developments in the client centered approach to therapy which took place in the U S and Europe during the 1970 s and early 1980 s

The Handbook of Person-Centred Psychotherapy and Counselling Mick Cooper,Maureen O'Hara,Peter F. Schmid,2013-05-31 Thoroughly updated to reflect the latest trends in theory and practice this this substantially revised and extended edition is the most in depth and wide ranging textbook available on person centred psychotherapy and counselling Divided into four parts it examines the theoretical philosophical and historical foundations of the person centred approach the fundamental principles of person

centred practice and applications of person centred practice how person centred conceptualisations and practices can be applied to groups of clients who bring particular issues to therapy and finally professional issues for person centred therapists such as ethics supervision and training Written by a diverse range of expert contributors unified by a more relational ethics based reading of person centred theory and practice this is a comprehensive cutting edge resource for students on all advanced level person centred courses as well as for a wide range of professional practitioners in the field New to this Edition A new introductory chapter looking at contemporary challenges and opportunities for growth for the person centred world Nine further new chapters including work with children and young people older clients arts based therapies addiction and bereavement spiritual dimensions contact and perception working integratively global and political implications Increased use of text learning features to make the chapters more accessible and engaging A greater focus on actual practice with more case studies and examples of therapist client dialogues Increased reference to research A general updating of all chapters to include all relevant references

The Person-Centered Approach Doug Bower, 2000-11-16 For nearly 50 years the approach of Carl Rogers and his colleagues has been used to help others in counseling psychotherapy and education This project takes that work into the realms of Religion Politics Alcohol treatment Incest Mental Disabilities Sandtray therapy Philosophy and Person Centered history theory

The Handbook of Person-Centred Psychotherapy and Counselling, 2024-09-05 Written by a diverse range of expert contributors unified by a relational ethics based reading of person centred theory and practice this seminal text is the most in depth and comprehensive guide to person centred therapy Divided into four parts it examines the theoretical philosophical and historical foundations of the person centred approach the fundamental principles of person centred practice as well as new developments in and applications of person centred clinical work explorations of how person centred conceptualisations and practices can be applied to groups of clients who bring particular issues to therapy such as bereavement or trauma and professional issues for person centred therapists such as ethics supervision and training 10 years after it was last published this third edition includes new content on the climate crisis intersectionality and working with racism and anti racism It includes new dedicated chapters on the Non directive Attitude Relational Depth Experiential Practices Working with Trauma Online PCA and Person Centred approaches around the Globe International and interdisciplinary in conception this is a cutting edge resource for students of psychotherapy and counselling on a range of programmes as well as professional practitioners working in the field

Person-Centred Therapy Today Dave Mearns, Brian Thorne, Elke Lambers, Margaret Warner, 2000-11-13 At the risk of being directive I would say you should buy this book It contains some of the most stimulating and refreshing ideas to have emerged in the person centred literature since On Becoming a Person Person Centred Practice Person Centred Therapy Today makes a timely and significant contribution to the development of one of the most popular and widely used therapeutic approaches This is a book that is rooted in the origins of person centred therapy but stands at the cutting edge of new ideas developing in this tradition

It will reinvigorate those of us already immersed in this tradition It should convince newcomers of the vitality and potential of this approach to therapy **Counseling Theories and Case Conceptualization** Stephen V. Flynn, Joshua J.

Castleberry, 2023-10-30 One of the aspects of this textbook that I most appreciate is that Dr Flynn embraces action as a scholar by integrating the most relevant and impactful theoretical practices tackling developing trends such as telebehavioral health and challenging us as readers to apply complex theoretical constructs from an intersectional culturally responsive and social justice paradigm This is not a reimagining of the traditional counseling theories textbooks from 10 years ago but rather an act of evolution and engagement captured in the immediate assertion of social justice oriented theories Nicole R Hill Interim Provost and Vice President for Academic Affairs Professor Counselor Education Shippensburg University Helps future counselors apply key theoretical constructs to real world scenarios through session transcripts and detailed case conceptualizations For students enrolled in master's and advanced doctoral programs this groundbreaking textbook blends theoretical insight and practical application Woven throughout is a focus on the multiple levels of diversity intersectionality and identity that individuals embody and the skills and interventions necessary to produce positive outcomes The book is distinguished by the inclusion of Voices from the Field digital video interviews with 12 expert practitioners of leading theories These practitioners representing different contextual backgrounds and intersectional identities share their perspectives and experiences on how to best use a particular theory to help marginalized communities who have experienced discrimination All theory based chapters provide readers with case conceptualizations session transcripts and videos of Voices from the Field Additionally all chapters include learning objectives chapter summaries and student activities Within each chapter students will learn theory aligned assessment instruments that resonate with clients needs and acquire proficiency in an eclectic array of techniques derived from both classic and contemporary counseling theories The book innovatively applies techniques and skills to pressing issues such as racism discrimination and inequity through adept application of theory to empower healing and transformation Instructors will also have access to a full suite of ancillaries including an Instructor Manual Test Bank and chapter PowerPoints Key Features Mapped to the Council for the Accreditation of Counseling and Related Educational Programs CACREP 2016 and 2024 standards Examines nuances of 36 counseling theories new and emerging counseling theories and describes 24 theoretically congruent assessment instruments Includes 12 digitally recorded Voices from the Field interviews that showcase first person accounts from diverse clinicians working with marginalized communities people of color LGBTQIA clientele and other underrepresented populations Contains detailed information about the profession's unique theoretical history leaders legacies waves of philosophical and political change and practice based skills Incorporates information needed to fully understand how counseling theories make meaning of mental health issues human development and client and counselor therapeutic roles Chapters include an examination of the findings of contemporary theory based research Demonstrates the use of theoretical and atheoretical case

conceptualization and skills using the same reoccurring case Provides session transcripts for each theoretical chapter demonstrating in depth examples of theory based skills

The Person-Centred Counselling and Psychotherapy

Handbook: Origins, Developments and Current Applications Colin Lago, Divine Charura, 2016-04-16 From the origins of Carl Rogers person centred approach to the cutting edge developments of therapy today The Person Centred Counselling and Psychotherapy Handbook charts the journey of an ambitious vision to its successful reality In this book Lago and Charura bring together history theory research and practice to deliver a complete and unique perspective on the person centred approach Key topics include The groundbreaking journey of PCA s early decades spearheaded by Carl Rogers Developments and extensions of the original theory and practice The influence of PCA in developing new therapies and practice The frontier of contemporary PCA and therapists work with client groups of difference and diversity With its broad view that explores the origins variations and applications of PCA The Person Centred Counselling and Psychotherapy Handbook gives a comprehensive overview of the knowledge required and the issues faced by practitioners making it an important resource for the seasoned and training practitioner alike This particularly welcome contribution is distinctive in fostering a contemporary contextualised and transcultural person centred practice edited as it is by two leading UK figures in the field of diversity in counselling and psychotherapy Review in Therapy Today October 2016

Contemporary Theory and Practice in Counseling and Psychotherapy Howard E. A. Tinsley, Suzanne H. Lease, Noelle S. Giffin Wiersma, 2015-03-18 This comprehensive topically arranged text provides a contemporary account of counseling theories as practiced by internationally acclaimed experts in the field Each chapter covers the way mindfulness strengths based positive psychology and the common factors model is integrated into the theory A special emphasis on evidence based practice helps readers prepare for their work in the field Key Features The text focuses on how each theory presents a useful and effective basis for contemporary practice providing students with the most up to date scholarship on current theories and how these theories guide the practice of today s counselors and psychotherapists Chapters are written by internationally acclaimed experts offering a truly global and complete perspective of the field Discussion of the pros and cons of each theoretical approach allows students to explore all sides of an approach offering an opportunity for balanced critical analysis of the material Brief therapies or manualized approaches developed in response to the limits imposed by insurance companies on the number of reimbursable therapy sessions per client are addressed as many theoretical approaches offer strategies for providing these therapies Careful discussion in every chapter of the applicability of theories to a diverse client population allows readers to address the specific needs of a broader clientele while acknowledging gender race age sexual orientation religion etc Integrated coverage of and a separate chapter on evidence based practice introduce students to what is becoming the expected standard for effectively working with clients Lists of additional resources from expert contributors allow students to further explore the concepts presented

Theories of Counseling and Therapy Jeffrey A. Kottler, Marilyn J.

Montgomery,2010-12 A core text for courses on Theories of Counseling and Psychotherapy this book represents an experiential approach to understanding and applying theory It is written in a student friendly style that enables students to comprehend the various and complex theories apply the material to their own lives through the use of many reflective exercises in every chapter and internalize the content of the course The original edition was published by Pearson The new edition will be updated and expanded In addition the new text will have more primary source material theory in action boxes and Voice of Experience boxes that feature experts from the field In addition a DVD of several clinicians demonstrating their theory in action will be included and sample lesson plans with primary source material sample syllabus with class activities a table showing how the textbook can be used to meet specific accreditation requirements and practice quizzes for students will also be included

The Sage Encyclopedia of Mood and Anxiety Disorders Dara G. Friedman-Wheeler,Amy Wenzel,2024-10-24 Courses in psychological distress and disorders are among the most popular courses in psychology programs and mood and anxiety disorders are among the most prevalent disorders covered in these classes and encountered by mental health professionals Although there are books on mood and anxiety disorders on particular aspects of them and on their presentation in specific populations such works do not provide students new to the field with a comprehensive and accessible ready reference for understanding these disorders with respect to their phenomenology etiology and treatment and through an inclusive lens that consistently considers how these symptoms appear and are construed across cultures addressing societal factors such as race culture equity and oppression It is hoped that The SAGE Encyclopedia of Mood and Anxiety Disorders will fill this gap allowing students and other interested readers to become familiar with past and current approaches and theories and to enhance their understanding of the sociocultural factors that affect how we discuss approach and treat these types of psychological distress As such consideration of sociocultural factors will infuse the three volume set The encyclopedia will consist of approximately 450 entries essays arranged alphabetically within three volumes

The SAGE Encyclopedia of Theory in Psychology Harold L. Miller, Jr.,2016-01-05 Drawing together a team of international scholars The SAGE Encyclopedia of Theory in Psychology examines the contemporary landscape of all the key theories and theorists presenting them in the context needed to understand their strengths and weaknesses Key features include Approximately 300 signed entries fill two volumes Entries are followed by Cross References and Further Readings A Reader's Guide in the front matter groups entries thematically A detailed Index and the Cross References provide for effective search and browse in the electronic version Back matter includes a Chronology of theory within the field of psychology a Master Bibliography and an annotated Resource Guide to classic books in this field journals associations and their websites The SAGE Encyclopedia of Theory in Psychology is an exceptional and scholarly source for researching the theory of psychology making it a must have reference for all academic libraries

Person-Centred Counselling in Action Dave Mearns,Brian Thorne,John McLeod,2013-01-22 Audio book out now It is now 25 years since the first edition of Person Centred Counselling

in Action appeared offering the definitive exposition of the theory and practice of the person centred approach Since then the book has supported and inspired hundreds of thousands of trainees and practitioners worldwide This important Fourth Edition maintains the book's accessibility clarity and verve whilst incorporating new developments in the approach John McLeod joins authors Dave Mearns and Brian Thorne to contribute an exciting new chapter on research relevant to the person centred field Person Centred Counselling in Action Fourth Edition will be an invaluable resource for those embarking on their first stages of training Well established practitioners and even seasoned scholars will continue to find much to interest and stimulate them Dave Mearns is professor of counselling and retired Director of the Counselling Unit of the University of Strathclyde He has written seven books including Working at Relational Depth in Counselling and Psychotherapy with Mick Cooper and is co editor of the international journal Person Centered and Experiential Psychotherapies Brian Thorne is Emeritus Professor of Counselling at the University of East Anglia Norwich where he was previously Director of Counselling and of the Centre for Counselling Studies He is also a Co founder of the Norwich Centre and continues to work there as a Professional Fellow John McLeod is Emeritus Professor of Counselling at the University of Abertay Dundee and adjunct Professor of Psychology at the University of Oslo Norway Counseling and Psychotherapy Siang-Yang Tan,2022-04-19 This substantially revised and updated edition of a widely used textbook covers the major approaches to counseling and psychotherapy from a Christian perspective with hypothetical verbatim transcripts of interventions for each major approach and the latest empirical or research findings on their effectiveness The second edition covers therapies and techniques that are increasing in use reduces coverage of techniques that are waning in importance and includes a discussion of lay counseling The book presents a Christian approach to counseling and psychotherapy that is Christ centered biblically based and Spirit filled Teaching Empathy in Healthcare Adriana E. Foster,Zimri S. Yaseen,2019-11-18 Empathy is essential to effectively engaging patients as partners in care Clinicians empathy is increasingly understood as a professional competency a mode and process of relating that can be learned and taught Communication and empathy training are penetrating healthcare professions curricula as knowledge about the most effective modalities to train maintain and deepen empathy grows This book draws on a wide range of contributors across many disciplines and takes an evidence based and longitudinal approach to clinical empathy education It takes the reader on an engaging journey from understanding what empathy is and how it can be measured to approaches to empathy education informed by those understandings It elaborates the benefits of embedding empathy training in graduate and post graduate curricula and the importance of teaching empathy in accord with the clinician's stage of professional development Finally it examines systemic perspectives on empathy and empathy education in the clinical setting addressing issues such as equity stigma and law Each section is full of the latest evidence based research including notably the advances that have been made over recent decades in the neurobiology of empathy Perspectives among the interdisciplinary chapters include Neurobiology

of empathy Measuring empathy in healthcare Teaching clinicians about affect Teaching cultural humility Understanding the core of others by reflecting on ours Empathy and implicit bias Can empathy training improve equity Teaching Empathy in Healthcare Building a New Core Competency takes an innovative and comprehensive approach towards a developed understanding of empathy in the clinical context This evidence based book is set to become a classic text on the topic of empathy in healthcare settings and will appeal to a broad readership of clinicians educators and researchers in clinical medicine neuroscience behavioral health and the social sciences leaders in educational and professional organizations and anyone interested in the healthcare services they utilize Psychotherapy for the Advanced Practice Psychiatric Nurse, Second Edition Kathleen Wheeler, 2013-12-11 Dr Wheeler has skillfully crafted a text that covers basic psychiatric principles and skills from developing a therapeutic relationship and assessing and diagnosing the client to providing evidence based psychotherapy for a variety of patient populations This text is an excellent primer for teaching therapy skills and although targeting graduate psychiatric nursing students would prove equally valuable for students of any mental health discipline It is also a resource for experienced clinicians wanting to expand their understanding of trauma and how adaptive information processing might be used as an organizing framework for all psychotherapy Linda Mabey Journal of EMDR Practice and Research DESCRIPTION This is a how to compendium of evidence based approaches to practicing psychotherapy for both the experienced and neophyte advanced practice psychiatric nurse This book integrates neuroscience with relationship science and unites disparate psychotherapeutic approaches into a model that is concise and straightforward yet sufficiently comprehensive to provide a framework for practice The most useful therapeutic models are highlighted with principles and techniques of treatment for nurse psychotherapists and those with prescriptive authority This second edition expands the award winning first edition providing guidelines forms and case studies to assist APPNs in deciding which treatment to use based on psychotherapy outcome studies and practice guidelines New Chapters in the Second Edition Motivational Interviewing Dialectical Behavior Therapy Group Therapy Family Therapy Eye Movement Desensitization and Reprocessing EMDR Therapeutic Approaches for Addictions New CPT Codes Reimbursement Awards and Reviews for the First Edition APNA Media Award AJN Book of the Year Award 5 Star Amazon Reviews 4 Star Doody Review Lays out a holistic paradigm for advanced psychiatric nursing APN practice by drawing upon a neuroscience of information processing human development attachment theory and trauma and explains the essentials of psychotherapy by melding principles underlying the therapeutic alliance adaptive information processing AIP change and a hierarchically arranged treatment format that fosters healing through the resolution of dysfunctional memory this important text holds true to the historical basis for psychiatric nursing being organized around phases and principles of the nurse patient relationship Margaret England PhD RN CNS Perspectives in Psychiatric Care Wheeler offers the field a scholarly training manual grounded in Shapiro's 2001 adaptive information processing paradigm where the brain is viewed as an information processing system with innate self

healing mechanisms that regulate its internal environment to survive and to maintain a stable constant condition through dynamic regulation Robert M Greenfield PhD Journal of Trauma Dissociation
