Ghaderi, Kristin Sonnenberg, Luqman Saleh Karim, Niyan Namiq Sabir, Zhiya Abbas Qader, Lisa Marie Dünnebacke, 2021-09-16 The book presents a theoretical and practical approach to international social work. It uses examples from Germany with a long tradition of social work and focuses on the Kurdistan Region of Iraq which is in a pioneering phase in teaching social work while at the same time experiencing a highly explosive situation in global politics. Socio-political challenges such as violence, traumatization, religious fundamentalism, ethnicization, changing gender relations, flight and migration call for a professional examination of social work as a human rights profession in international comparison. Let's Put Data to Use: Digital Scholarship for the Next Generation P. Polydoratou, M. Dobрева, 2014-06-05 The ways in which research data is used and handled continue to capture public attention and are the focus of increasing interest. Electronic publishing is intrinsic to digital data management and relevant to the fields of data mining, digital publishing and social networks with their implications for scholarly communication, information services, e-learning, e-business and the cultural heritage sector. This book presents the proceedings of the 18th International Conference on Electronic Publishing (ELPUB) held in Thessaloniki, Greece, in June 2014. The conference brings together researchers and practitioners to discuss the many aspects of electronic publishing and the theme this year is 'Let's put data to use: digital scholarship for the next generation'. As well as examining the role of cultural heritage and service organisations in the creation, accessibility, duration and long-term preservation of data, it provides a discussion forum for the appraisal, citation and licensing of research data and the new developments in reviewing, publishing and editorial technology. The book is divided into sections covering the following topics: open access and open data; knowing the users better; researchers and their needs; specialized content for researchers; publishing and access; and practical aspects of electronic publishing. Providing an overview of all that is current in the electronic publishing world, this book will be of interest to practitioners, researchers and students in information science as well as users of electronic publishing. *Engaged Scholarship* Lynette Shultz, Tania Kajner, 2013-09-03 This volume brings together diverse theoretical reflections and practices of community engaged scholarship in order to stimulate critical discussion, deepen theory and invite critical practice. It is an international trend that higher education institutions and agencies are encouraging and promoting community engagement. At the same time, there is recognition of a lack of consistent definitions and understandings of what it is they are promoting. As a counterweight to the dominance of pragmatic and technical discussions in the literature on engaged scholarship, the chapters in this book shift the discourse to ask foundational questions that emphasize the political nature of engagement. Recognizing that acts of engagement are never neutral, the authors in this book explore how engaged scholarship requires decision making that is inherently grounded in values, beliefs and interpretations of what is and what ought to be. Alongside complex global and local social movements rising to address issues for example climate change or the global financial collapse and the uneven consequences of these globalized problems, we see corresponding concerns expressed about the limited participation by

excluded silenced and invisibilized people throughout the world How can engaged scholarship be mobilized and who will it serve within such contexts With contributions covering such diverse topics as a non binary approach to engagement citizenship of knowledge university contexts and corporatization stranger pedagogies and anti foundational approaches to service learning contemporary revolutionary movements in the Arab world and transforming higher education through Africanist onto epistemologies this volume is poised to open the door to a deeper understanding of engaged scholarship

Alstete,Nicholas J.

Beutell, John P. Meyer, 2018-06-26 This book probes the dynamics of academic research and scholarship evaluation Readers will learn about scholarly metric evolution impact factors disruptive technologies and a myriad of forces affecting policy development at institutions through an examination of widely used measurements and growing concerns about their influence *Rethinking Legal Scholarship* Rob van Gestel, Hans-W. Micklitz, Edward L. Rubin, 2017-02-02 Although American scholars sometimes consider European legal scholarship as old fashioned and inward looking and Europeans often perceive American legal scholarship as amateur social science both traditions share a joint challenge If legal scholarship becomes too much separated from practice legal scholars will ultimately make themselves superfluous If legal scholars on the other hand cannot explain to other disciplines what is academic about their research which methodologies are typical and what separates proper research from mediocre or poor research they will probably end up in a similar situation Therefore we need a debate on what unites legal academics on both sides of the Atlantic Should legal scholarship aspire to the status of a science and gradually adopt more and more of the methods quality standards and practices of other social sciences What sort of methods do we need to study law in its social context and how should legal scholarship deal with the challenges posed by globalization **Sharia Compliant** Rumeel Ahmed, 2018-05-01 For over a thousand years Muslim scholars worked to ensure that Islamic law was always fresh and vibrant that it responded to the needs of an evolving Muslim community and served as a moral and spiritual compass They did this by hacking Islamic law in accordance with changing times and contexts diving into the interconnected Islamic legal tradition to recalibrate what was outdated making some laws work better and more efficiently while leaving others undisturbed These hacking skills made Islamic law both flexible and relevant so that it could meet the needs of a community with changing values while remaining true to its ancient roots Today the hacking process has stalled in the face of unprecedented structural challenges and Islamic law has stagnated This book is designed to revitalize the hacking tradition by getting readers involved in the process It walks them through the ins and outs of Islamic legal change vividly describing how Muslim scholars have met new and evolving challenges on topics as diverse as abolition democracy finance gender human rights sexuality and more And it provides step by step instructions for readers to hack laws for themselves so that through their engagement and creativity they can help Islamic law regain its intrinsic vitality and resume its role as a forward looking source for good in the world **Winning Grants** Sean Ekins, 2023-06-12 As an academic or a small business owner you will need to write grants at some point in your career Writing them though is not enough what you also need to know is how to win grants Much has been written about writing grants the mysterious special ability called grantsmanship so it occurred to me that there is a need to come at this differently and spill the beans The difficulty in getting a grant in particular an NIH grant like an R01 in the USA is often described it is competitive and gets tougher every year Your proposal therefore must stand out it must connect with the reviewers This is true for all types of grants give the reviewer what they want always But also you need to connect to the program officer the committee that

ultimately makes funding decisions and you must take care of a myriad of other details outside of the main event which is describing the science This means you cannot rely on just out writing the competition it is more than that as you have to out think out strategize and out schmooze them If you have been continually funded for decades that is terrific but if you want to keep being funded there is no guarantee what got you there will keep you there What was a hot technology 4 5 years ago is not the new thing anymore you will need to do something different but what You therefore need to not only think about writing great grants you need to put it into practice and win them Having written and won grants from the NIH and DOD over the past 17 years and longer by the time you read this I possess a valuable perspective Each grant and study section will be different Whether a big or small grant it does not seem to make a difference the reviewers will critique your efforts they may not like it they may reject your ideas or they may love it You have some small degree of control until the proposal leaves your hands or more correctly you click submit You will need to differentiate your grant from the hundreds of others in many ways but you cannot change who you are your history so how you describe yourself and team will also have an impact You could spend hundreds of hours on your proposal or just a day and the outcome might still be the same This small book is a summary of my own personal experiences and will provide some advice that will help you learn how to do a better job of winning grants This book is written by a scientist who writes the grants and develops commercial products Provides a unique perspective on what you need to write better grants Teaches you how to continually win grants This book provides examples from the authors own grant applications The reader will be inspired to start a company to win small business grants

Personal Investing: The Missing Manual Bonnie Biafore,Amy E. Buttell,Carol Fabbri,2010-05-12 This lively and easy to understand guide gives you the confidence tools and insight you need to evaluate financial products and make smart investments that target success over the long term You ll learn how to set long term goals for critical high cost events such as retirement your children s education and future health care needs Then you ll learn what types of investments will best help you achieve those goals In step by step fashion this book shows you how to research mutual funds stocks bonds and other financial products to create a portfolio of diversified investments Amazon Federal Register ,2014 **Identifying and Comparing Important Areas for Marine Sustainable Use and Conservation** Sofie Van Parijs,Joseph Appiott,Leslie New,Piers Dunstan ,Giuseppe Notarbartolo di Sciara,2024-05-24 The ocean is under increasing threat from the expansion of human activities The combined impacts of these threats as well as the potential impacts of climate change and ocean acidification have placed thousands of species at risk of extinction and have impaired the structure function productivity and resilience of marine ecosystems Currently some parts of the world s oceans are significantly impacted yet are without any form of effective management Only a small proportion of the oceans are within protected area systems Globally measures are being taken to increase protection and sustainable management but application is uncoordinated and not always effective In order to support effective policy action by countries and competent international and regional organizations it is critical to

build a sound understanding of the most ecologically and biologically important ocean areas that support healthy marine ecosystems so that the necessary steps to ensure the long term function and resilience of these systems can be taken
