Post, 2013-10-15 When preserving our history what do we choose to value why and who decides Honorable Mention for the National Council on Public History Book Award of the National Council on Public History In 1994 when the National Air and Space Museum announced plans to display the Enola Gay the B 29 sent to destroy Hiroshima with an atomic bomb the ensuing political uproar caught the museum s parent Smithsonian Institution entirely unprepared As the largest such complex in the world the Smithsonian cares for millions of objects and has displayed everything from George Washington s sword to moon rocks to Dorothy s ruby slippers from The Wizard of Oz Why did this particular object arouse such controversy From an insider s perspective Robert C Post s Who Owns

America's Past offers insight into the politics of display and the interpretation of history. Never before has a book about the Smithsonian detailed the recent and dramatic shift from collection driven shows with artifacts meant to speak for themselves to concept driven exhibitions in which objects aim to tell a story displayed like illustrations in a book. Even more recently the trend is to show artifacts along with props, sound effects and interactive elements in order to create an immersive environment. Rather than looking at history, visitors are invited to experience it. *Who Owns America's Past* examines the different ways that the Smithsonian's exhibitions have been conceived and designed, whether to educate, visitors, celebrate an important historical moment or satisfy donor demands or partisan agendas. Combining information from hitherto untapped archival sources, extensive interviews, a thorough review of the secondary literature and considerable personal experience, Post gives the reader a behind the scenes view of disputes among curators, academics and stakeholders that were sometimes private and at other times burst into headline news.

Rules of Attraction Simone Elkeles, 2011-10-27 From the New York Times bestselling author Simone Elkeles comes an epic love story like no other. The second book in the gripping PERFECT CHEMISTRY series, this is the next addictive read for fans of Anna Todd's AFTER series and Caroline Kepnes's YOU. Carlos Fuentes isn't happy about leaving Mexico to start the new life his older brother Alex has planned for him. Carlos liked his freedom, living life on the edge just like Alex did. Kiara Westford doesn't talk much, instead preferring to shut out the world. And when Carlos bounds into her life, she struggles to understand him. Carlos is sure that Kiara thinks she's too good for him, which is just fine because he's not interested anyway, right? But when they finally open up to each other, the connection they feel shocks them both. Can they overcome their fears and realize that sometimes opposites really do attract? Elkeles once again delivers a steamy page turner bound to make teens swoon. School Library Journal If Perfect Chemistry was good, Rules of Attraction is better. Fans of Perfect Chemistry need to read this book, and those who haven't read Perfect Chemistry need to get their hands on both pronto. Once Upon a Bookcase Elkeles has perfected the way she writes these novels because like its predecessor, the writing is fast paced and makes for easy reads because they never dwell too much on unnecessary factors. The Crooked Shelf A high recommendation for all fans of teen romance and there's enough depth to it and action coupled with a fairly gritty feel that I can also see it appealing to many people who normally wouldn't look twice at this genre. Also included are cases that explore legal issues in baseball but are not as well known, and cases that appear in most sports law books. For each case, the historical and legal significance of the decision is discussed.
