Clifford Lane

Google Maps Compare Open Now:

Mobile Mapping Clancy Wilmott, 2025-10-01 This book argues for a theory of mobile mapping a situated and spatial approach towards researching how everyday digital mobile media practices are bound up in global systems of knowledge and power Drawing from literature in media studies and geography and the work of Michel Foucault and Doreen Massey it examines how geographical and historical material social and cultural conditions are embedded in the way in which contemporary digital cartographies are read deployed and engaged This is explored through seventeen walking interviews in Hong Kong and Sydney as potent discourses like cartographic reason continue to transform and weave through the world in ways that haunt mobile mapping and bring old conflicts into new media In doing so Mobile Mapping offers an interdisciplinary rethinking about how multiple translations of spatial knowledges between rational digital epistemologies and tacit ways of understanding space and experience might be conceptualized and researched Google Maps Activity Book Malcom Brown, 2015-12-14 Great value Activity Book with more than 400 pages of worksheets and activities using Google Maps Google Earth and Google Street View Covers a range of topics subject areas and skills All self guiding challenging and very original An updated and attractive single book of activities with an answer key Invest in this book download and just print off whatever you need whenever you need it This book can be used as a tool to teach library skills geography knowledge mapping skills social studies all within a cross curriculum approach Comprehensive answer key included Software Process and Product Measurement Reiner R. Dumke, René Braungarten, Günter Büren, Alain Abran, Juan J. Cuadrado-Gallego, 2008-11-14 This book constitutes the refereed proceedings of three joint events the International Workshop on Software Measurement IWSM 2008 the DASMA Metrik Kongress Metrikon 2008 and the International Conference on Software Process and Product Measurement Mensura 2008 held in Munich Germany in November 2008 The 30 revised full papers presented were carefully reviewed and selected from over 50 submissions for inclusion in the book The papers are organized in topical sections on estimation models measurement methodology effort estimation measurement programs new approaches prozessbewertung size measurement education measurement in software lifecycle and product measurement Using Google Earth in Libraries Eva H. Dodsworth, Andrew Nicholson, 2015-09-01 Google Earth is a research mapping and cultural exploration tool that puts the whole world in your hands then hands over the tools to let you build your own world The uses of Google Earth in academia in libraries and across disciplines are endless and each year more innovate research projects are being released Since its launch Google Earth has had an enormous impact on the way people think learn and work with geographic information With easy access to spatial and cultural information and with customizable map features and dynamic presentation tools Google Earth is an attractive option for anyone wishing to host projects and to share research findings through a common online interface This easy to read practical guide Demonstrates how Google Earth has been used as a resource for research Showcases library path finders

discovery tools and collections built with Google Earth Discusses how Google Earth can be embedded into various library services Highlights effective uses of Google Earth in specific discipline education and provide step by step sample classroom activities Introduces Google Earth features data and map making capabilities Describes Google Earth related online resources After reading this guide librarians will be able to easily integrate Google Earth's many facets into their services and help teachers integrate it into their classrooms Because so many librarians are educators and subject specialists they can customize the learning outcomes for students based on the subject being studied This book presents a cross disciplinary overview of how Google Earth can be used in research in teaching and learning and in other library services like promotion outreach reference and very importantly collection and resource exploration and discovery This comprehensive guide to using Google Earth is for public school academic and special libraries serving from the elementary level through adult levels Although articles have been written about specific subjects and specific library projects this is the first published that offer a one stop shop for utilizing this online product for library related purposes Librarians reading this book will gain the Google Earth skills required to be able to not only use it themselves but also teach others in how to use this online technology
