Microprediction Peter Cotton, 2022-11-08 How a web scale network of autonomous micromanagers can challenge the AI revolution and combat the high cost of quantitative business optimization The artificial intelligence AI revolution is leaving behind small businesses and organizations that cannot afford in house teams of data scientists In Microprediction Peter Cotton examines the repeated quantitative tasks that drive business optimization from the perspectives of economics statistics decision making under uncertainty and privacy concerns He asks what things currently described as AI are not microprediction whether microprediction is an individual or collective activity and how we can produce and distribute high quality microprediction at low cost The world is missing a public utility he concludes while companies are missing an important strategic approach that would enable them to benefit

and also give back In an engaging colloquial style Cotton argues that market inspired superminds are likely to be very effective compared with other orchestration mechanisms in the domain of microprediction He presents an ambitious yet practical alternative to the expensive artisan data science that currently drains money from firms Challenging the machine learning revolution and exposing a contradiction at its heart he offers engineers a new liberty no longer reliant on quantitative experts they are free to create intelligent applications using general purpose application programming interfaces APIs and libraries He describes work underway to encourage this approach one that he says might someday prove to be as valuable to businesses and society at large as the internet

How Silicon Valley Unleashed Techno-feudalism

Cédric Durand,2025-10-21 The promise of the new economy gone we have regressed into the age of techno feudalism The rise of the IT industry in the nineties promised a new era of freedom and prosperity It didn't deliver Today algorithms are everywhere but digital monopolies push us towards the feudal logic of rent dispossession and personal domination How Silicon Valley Unleashed Techno feudalism tears apart the Silicon Valley consensus to reveal the new economic order in which capital has abandoned production to focus on predation

Mastering AI Jeremy Kahn,2025-07-08 A Fortune magazine journalist draws on his expertise and extensive contacts among the companies and scientists at the forefront of artificial intelligence to offer dramatic predictions of AI's impact over the next decade from reshaping our economy and the way we work learn and create to unknitting our social fabric jeopardizing our democracy and fundamentally altering the way we think Within the next five years Jeremy Kahn predicts AI will disrupt almost every industry and enterprise with vastly increased efficiency and productivity It will restructure the workforce making AI copilots a must for every knowledge worker It will revamp education meaning children around the world can have personal portable tutors It will revolutionize health care making individualized targeted pharmaceuticals more affordable It will compel us to reimagine how we make art compose music and write and publish books The potential of generative AI to extend our skills talents and creativity as humans is undeniably exciting and promising But while this new technology has a bright future it also casts a dark and fearful shadow AI will provoke pervasive disruptive potentially devastating knock on effects Leveraging his unrivaled access to the leaders scientists futurists and others who are making AI a reality Kahn will argue that if not carefully designed and vigilantly regulated AI will deepen income inequality depressing wages while imposing winner take all markets across much of the economy AI risks undermining democracy as truth is overtaken by misinformation racial bias and harmful stereotypes Continuing a process begun by the internet AI will rewire our brains likely inhibiting our ability to think critically to remember and even to get along with one another unless we all take decisive action to prevent this from happening Much as Michael Lewis's classic *The New Thing* offered a prescient insightful and eminently readable account of life inside the dot com bubble *Mastering AI* delivers much needed guidance for anyone eager to understand the AI boom and what comes next
