repercussions and how the radical Christianity of philosophers such as Spinoza affected a rethinking of the concept of religious tolerance that has influenced the modern era ever since **Great Britain** Richard S. Tompson, 2014-05-14 An A Z reference guide to significant people ideas places and events in British history *The Shape of Irish History* A.T.Q. Stewart, 2001-10-10 In an exploration of the essential structure of what is called Irish history A T Q Stewart looks at some shadowy areas and asks provocative questions about popular misconceptions Even where such misconceptions have been refuted by academic research Stewart argues the information has not percolated into the general domain because modern historians writing mainly for one another have lost the wider audience Criticizing his own profession for purporting to be scientific while largely ignoring the implications of for example scientific archaeology Stewart also opens up the closed shop of Irish history for the general reader The result is a landmark book the terrain of Irish history will never be the same again

Jellicoe's War Nicholas Jellicoe, 2024-12-31 In February 1917 German U boats launched a savage unrestricted campaign against both Allied and neutral shipping At its peak in April 860 000 tons of Allied merchant shipping was sunk Britain's supremacy at sea was being severely challenged and with it the chances of victory in the wider war Taking up the challenge was Britain's new First Sea Lord Sir John Jellicoe until the previous December C in C of the Grand Fleet famously described by Churchill as the only man who could have lost the war in an afternoon The battle he now faced was equally critical although the timeline of defeat was a matter of days rather than hours Britain's food stocks were dangerously low with wheat reserves down to six weeks and sugar to only two while wide scale shortages were crippling the industrial economy Jellicoe outlined the gravity of the situation with total candor to Rear Admiral William Sims USN sent over before America officially declared war by Franklin Roosevelt the Assistant Secretary of the Navy The two men already knew each other from service together in China during the Boxer Rebellion so Jellicoe's plea for urgent American assistance was taken seriously by Sims After the USA joined the war in April 1917 together they lobbied Washington for aid addressing their needs directly to two reluctant Anglophobes at the head of the USN Secretary of the Navy Josephus Daniels and Chief of Naval Operations William Benson Clearly a radical new approach to anti submarine warfare was called for and Convoy was the leading contender There were many objections to protecting shipping in this way some ideological but most practical a workable system for example effectively required state control of both shipping and distribution networks something inconceivable in normal circumstances However Convoy had powerful advocates including the Prime Minister Lloyd George who later claimed he had personally forced its adoption on a reluctant Admiralty This self serving political myth cast Jellicoe as an opponent of Convoy nothing could be further from the truth As both Jellicoe and Sims understood the key requirement was a rapid increase in the number of destroyers for escort duties America provided them the first arriving in Queenstown Ireland on 4 May and by June 46 were operating in European waters This was the first step in an Anglo American campaign that gradually brought the U boat threat under control and led to its ultimate defeat This book takes a fresh look at the undersea war as a whole and all

the complex factors bearing on the campaign only one of which was convoy Its analysis is original and its conclusions thought provoking an important contribution to the naval history of the Great War
