Plus, it'll show managers to C-Suites how to use performance management not just as an evaluation tool, but just as importantly, to help employees grow and improve on an ongoing basis so they are capable and motivated to support the organization's strategic objectives. Understand if your performance management system is working. Make fixes where needed. Get performance evaluation forms, interview protocols, and scripts for feedback meetings. Grasp why people make some businesses more successful than others. Make performance management a useful rather than painful management tool.
