The Wisdom of Jesus Charles W Hedrick,2017-04-27 How would our understanding of Jesus change if we abandoned our preconceptions and focussed on his words alone How would this wisdom compare with that of ancient Israel and the early first century church Such questions pose serious difficulties Everything in the early Christian gospels is either derived from historical memory or is borrowed or invented argues Charles W Hedrick Of the many sayings attributed to Christ historians can only agree on a few as having been spoken by him and those few are far from certain In *The Wisdom of Jesus* Hedrick overcomes these challenges presenting a picture of Jesus as expressed through his own words The Jesus that emerges is a lower class man of the first century a complex figure who cannot be considered religious in a traditional sense Liberated from theological explanation and interpretation his discourse is revealed as belonging to the secular world and his concerns to be those of common life

Banned in Berlin Gary D. Stark,2012 Imperial Germany's governing elite frequently sought to censor literature that threatened established political social religious and moral norms in the name of public peace order and security It claimed and exercised a prerogative to intervene in literary life that was broader than that of its Western neighbors but still not broad enough to prevent the literary community from challenging and subverting many of the social norms the state was most determined to defend This study is the first systematic analysis in any language of state censorship of literature and theater in imperial Germany 1871-1918 To assess the role that formal state controls played in German literary and political life during this period it examines the intent function contested legal basis institutions and everyday operations of literary censorship as well as its effectiveness and its impact on authors publishers and theater directors

Africans and Globalization Oyinlola Longe,Akinloyè Òjó,Karim Traore,2017-11-22 *Africans and Globalization* Linguistic Literary and Technological Contents and Discontents considers the substance and dissatisfactions of globalization on Africa and its Diaspora Although variously framed across disciplines globalization has generally entailed non milieu bound interactions which alters the existence of its participants The concerns about the impact of globalization have been raised in relation to Africa and have related to the helpful and deleterious effects Increasingly industrialization without consideration of environmental impacts and westernization including erosion of indigenous values are perceived as synonymous with globalization This multidisciplinary collection contends that in theory globalization linked Africa with the world through trade

and information sharing thereby increasing development This collection provides reflections based on contemporary research within the linguistic literary and technological areas of study It illustrates that globalization is not a single process but rather a complex set of processes that seemingly operate in an oppositional manner The collected works make for exciting appraisal as they highlight some of the contents and discontents of globalization across multiple areas of human endeavor in Africa and its diaspora

The Need for Revision David P. Owen, Jr., 2012-01-01 Can we have more teacher intellectuals in our classrooms This book demonstrates that we can But many things have to change before intellectual standards appear again in public schools David Owen attempts to show but not in outline form how we can revise our schools Can we escape the rut in which public education finds itself dominated by the inane tests the stifling reduction of school to job training and the insane transformation of a life affirming odyssey of the mind to cliché information gathering and slogans We can reclaim the beauty of an education if we join David and revise our classrooms Education is uncertain risky wonderously adventurous yet schooling has become stale No tediously dreadful There is a need to revise Reject standardized tests Repeal pay for performance Eject No Child Left Behind before no child has a thoughtful mind left It is time to revise and David's book explains why Are we still interested in the mind soul and substance of the individual Does it matter who we are and become or just what we do If these questions still matter dwell carefully with David's ideas and transform yourself your students school community state nation and world It is time to revise them all John A Weaver Georgia Southern University

Philip Roth and the Jews Alan Cooper, 2012-02-01 In a style richly accessible to the general reader this book presents Roth's secular Jewishness with its own mysteries and humor as most representative of the American Jewish experience Thirty years into his career as a writer Philip Roth remains known to most readers as a self-hating Jew or a flawed would-be comic Philip Roth and the Jews shows Roth the ironist the master of absurdity for whom twentieth century America and modern Jewish history resonate with each other's signal accomplishments and anxieties Roth's egoism is a persona an abashed moralist discomfited by the world Cooper shows that in the Jewish works Roth has taken the pulse of America and read the pressures of the world Modernism the universal tug for individual sovereignty and against tribal definition is an issue everywhere Roth's own odyssey of betrayal loss and return the pattern of the Jewish writer in the last 200 years is so shaped by his origins that Roth has carried his home and neighborhood into the corners of the earth and thus never left them

Glimpses of the New Creation W. David O. Taylor, Jeremy Begbie, 2019-09-03 How do the arts in worship form individuals and communities Every choice of art in worship opens up and closes down possibilities for the formation of our humanity Every practice of music every decision about language every use of our bodies every approach to visual media or church buildings forms our desires shapes our imaginations habituates our emotional instincts and reconfigures our identity as Christians in contextually meaningful ways generating thereby a sense of the triune God and of our place in the world Glimpses of the New Creation argues that the arts form us in worship by bringing us into intentional and intensive participation in the aesthetic aspect of

our humanity that is our physical emotional imaginative and metaphorical capacities In so doing they invite the people of God to be conformed to Christ and to participate in the praise of Christ and in the praise of creation which by the Spirit's power raises its peculiar voice to the Father in heaven for the sake of the world that God so loves African Literature and the Politics of Culture James Tar Tsaaio, 2013-11-01 This book essentially negotiates African literature as a veritable site of artistic and cultural production and situates it within the dynamic of postcolonial cultural politics It critically evaluates African literature as a contour of cultural contestation with the imperial politics of knowledge production about others and as an ideological strategy for knowing them The book's main contribution to the critical discourse on African literature and culture inheres in the fact that politics constitutes the enduring concern of society as it re-shapes and over-determines discourses which have continued to remain crucial to societal engineering It however imagines the discursive existence as necessary for the evolving of a dynamic African literary tradition with an abiding fidelity to the verities of history The book is useful for literary scholars historians critics experts and students of postcolonial cultural studies as well as general readership interested in African studies Bilingual Learners and Social Equity Ruth Harman, 2017-08-13 This volume explores how educators conceptualized and implemented critical approaches to systemic functional linguistics that support bilingual students in appropriating and challenging dominant knowledge domains in K-16 contexts The researchers exhibit a shared commitment to enacting a culturally sustaining SFL praxis that validates multilingual meaning-making pushes against social inequity and fosters creative re-mixing of available semiotic resources It should prove a valuable resource for students teachers and researchers interested in applied linguistics education and critical theory Literature; Structure, Sound, and Sense, 1970 The Gyroscopic Transformation of Self Quest in W. B. Yeats's Poetry Özlem Saylan, 2019-01-17 Carrying a story to tell is the ancient burden of craftsmen and it is one of the characteristics of the quest to find oneself since a journey requires recognition of the aspects of self and anti-self Like the speaker of his poems W.
