Power, 2007-05-07 The handbook takes the practitioner to the next stage with an overview of the key evidence based therapies with guidelines on further reading and training It also reviews key professional and organisational issues related to the delivery of services in resource limited situations

Personal Construct Psychology Han Bonarius, Ray Holland, Seymour Rosenberg, 1981

Personal Constructivism Larry Milton Leitner, Jill C. Thomas, 2009 In a sense the multifaceted contributions in this compendium deconstruct and reconstruct the very concept of personal construct psychology tracing its personal origins in the life and work of George Kelly examining its implications for the construction of a social self and its shadow side alienation and exploring its affordances for a striking range of clinical and theoretical issues Anyone who wonders whether this wellspring of constructivist psychology continues to feed into vital contemporary discourse will be reassured by the strength vitality and novelty of the contributions to these pages and the clarity with which Kelly's voice is echoed and extended in the voices of subsequent generations of scholars Robert A Neimeyer Ph D University of Memphis and author Constructivist Psychotherapy

Personal Construct Therapy Linda L. Viney, 1996 This book provides a description of the change processes that occur in psychotherapy when it is viewed from a personal construct perspective This perspective assumes both therapist and client to be active construers making sense of themselves and one another The ideas about people in general which are basic to the constructivist approach are introduced and followed by those which are specifically about psychotherapy The construing of therapists and clients about themselves and psychotherapy is explored Then the central role of reconstructing is considered The reconstructive process is dealt with in some depth including the goals of personal construct therapy the process of reconstructing and the sharing of it between therapist and client The main strategies of individual and group personal construct therapy are described together with the self monitoring that is involved in becoming an effective therapist using these ideas

Personal Construct Methodology Peter Caputi, Linda L. Viney, Beverly M. Walker, Nadia Crittenden, 2011-11-17 Written by an international team of experts this collection provides a comprehensive account of established and emerging methods of collecting and analysing data within the framework of personal construct theory Covers methods such as content analysis scales repertory grid methodology narrative assessments and drawings the laddering and ABC techniques and discusses how and why they are used Explores both qualitative and quantitative methods as well as

methods used in clinical and counselling settings Includes 13 contributions from leading international scholars **Against and for CBT** Richard House, Del Loewenthal, 2008 Offers a wide range of critical perspectives on the rise of Cognitive Behavioural Therapy CBT from around the world *Issues and Approaches in Personal Construct Theory* Donald Bannister, 1985 **Creative Construing** Jörn W. Scheer, Kenneth W. Sewell, 2006 The Psychology of Personal Constructs as devised by the American psychologist George Kelly stresses the importance of the meanings that individuals attach to persons and events in the world surrounding them Originating in clinical psychology it has increasingly attracted the interest of scholars and practitioners working in education in organisations and in other disciplines working with people As there are hardly more personal processes than creative ones it seems appropriate to look at the arts from a personal construct psychology perspective This book presents for the first time analyses of creative processes but it features also personal accounts by creative people who write sing dance act and make music **Advances in Cognitive-behavioral Research and Therapy**, 1985 **Personal Construct Counselling in Action** Fay Fransella, Peggy Dalton, 1990 How can you help clients get the most out of the counseling experience The authors of this clear and accessible volume outline the key principles of Personal Construct Theory They discuss and illustrate how the starting point of counseling is a careful exploration of the ways in which a client construes his or her world through credulous listening to all the client says and does not say They describe the range of methods which may be used to help a counselor and client learn about these constructions and their implications including self characterizations and the repertory grid technique In addition the authors show how the counselor and client together devise experiments for change through which the client can try out new and more rewarding ways of interpreting and acting A number of approaches to facilitate change are discussed and exemplified The book concludes with a detailed case study of the counseling process with one particular client This is an informative book which is concise well written and with no shortage of clinical examples It should be relevant to all who are interested in counselling and psychotherapy and it may just whet some appetites for more British Journal of Psychology One of the excellent series Counselling in Action If you want to know about Personal Construct counselling this is for you Self and Society The book provides a very readable introduction that is to be commended The authors provide useful summaries of repertory grids fixed role therapy self characterization and other methods for helping people change International Review of Psychology
