Empirical Studies of an Internet and Service Based Economy Nabaz T. Khayyat,Goran M. Muhamad,2023-07-07 This book is a collection of eight studies covering several areas pertinent to the current technological and banking services situation in the Kurdistan region of Iraq The economy of the Kurdistan Region of Iraq KRI is mainly dependent on oil revenue The oil

export revenue constitutes more than 90% of the government's fiscal revenue. In addition to that, the public sector plays an excessive role in the economy with public spending to GDP being over 70% while revenue from taxation constitutes less than 30% of total revenue. As the economy is not diversified, there is a large gap between demand and supply of locally produced tradeable goods, leaving the KRI economy highly dependent on imports. Another structural challenge of the KRI economy is its dependence on cash and a weekly financial system. Although the region has witnessed extraordinary economic growth from 2008 to 2014, the growth rate decreased from 8 to 1 percent, trade and investment dropped to 5 percent, and the unemployment rate significantly increased to over 20% by the end of the year 2019. To maintain the progress of economic development, it is necessary to upgrade the country's industrial structure in order to be able to generate more value added products, which requires advancement in technological infrastructure to employ more sophisticated technologies. There is not much written about Kurdistan and its economy, and yet there is a comprehensive development plan and resources to be used for education, research, rehabilitation, development, and reconstruction. As such, this book would be of interest to researchers, decision makers, governmental and non-governmental organizations, undergraduate and graduate students, and the general public with an interest in the Middle East and contemporary Kurdish issues. It is a good up-to-date handbook for policymakers and NGOs involved in the rehabilitation, reconstruction, and development of Iraq.

Strategic Corporate Social Responsibility David Chandler, 2022-09-12. Strategic Corporate Social Responsibility: Sustainable Value Creation. Sixth Edition redefines corporate social responsibility (CSR) as being central to the value-creating purpose of the firm. Based on a theory of empowered stakeholders, this bestselling text argues that the responsibility of a corporation is to create value broadly defined. The primary challenge for managers today is to balance the competing interests of the firm's stakeholders, understanding that what they expect today may not be what they will expect tomorrow. This tension is what makes CSR so complex and demanding, but it is also what makes CSR integral to the firm's strategy and day-to-day operations. In this new Sixth Edition, author David Chandler explores issues around COVID-19, the BLM movement, the supply chain crunch, and the great resignation.

Library 2.0 and Beyond Nancy Courtney, 2007-06-30. Editor Courtney has pulled together the best and the brightest who write and practice Web 2.0 to author chapters on next-generation online tools. This text is not a how-to on Web 2.0; rather, each chapter simply explains an online tool and how it is being used today, using a few superb library examples ranging from public to academic, and then discusses future possibilities. The suggested readings exemplify the notion of Web 2.0 and publishing, as the recommendations are well balanced between journal articles and freely accessible blog entries. This is a must-have to any library wanting to stay relevant in today's ever-changing and challenging environment.

Transient Images Eric Freedman, 2011. Whither the life of online images.

Surviving 7.8 Phil Pennington, 2017-03-01. The story of New Zealand's response to its second most powerful earthquake on record. Described by Geonet as one of the most complex earthquakes ever observed, RNZ's Vicky McKay was first to report on its violence.

broadcasting live in the Wellington studio when 7 8 arrived by stealth at 12 02am As intermittent reports came in from as far north as Auckland and south to Gore confusion reigned and New Zealanders were asked to turn on public radio for live updates Reporters for the national broadcaster scrambled and leading the way was veteran journalist Phil Pennington part of the first team to arrive in the damage zone Surviving 7 8 relives the drama from the moment it struck to the remarkable horrifying yet fascinating events that followed and the typically Kiwi response to a disaster of unbelievable scale Throughout the narrative are quotes tweets Facebook posts and stories from everyday New Zealanders the immediate reaction the uncertainty the turmoil to the roll your sleeves up let s get on with it do it yourself attitude that New Zealanders are known for From Gary Melville who used bricks that fell off his house to cook a lamb roast to the Christchurch man who rallied to save the lives of thousands of paua to the Rakautara residents stranded between two massive landslides to the farmer who lent Phil Pennington his ute to get around the disaster zone Surviving 7 8 captures the events and the sometimes bizarre twists and turns in a tough but fascinating study in resilience Stealth and power these are the hallmarks of a major earthquake It arrives unheralded at the spot on which you stand or the bed in which you lie and sends you reeling Your family or friends can be all around you next to you clutching you and you are powerless to help them your partner may be on the other side of the bed your child may be under a table across the room and in that moment you are powerless to reach them and powerless to stop the shaking and swaying In those moments you feel tiny and the forces beneath you feel massive even malevolent You are caught up in a geological rollercoaster ride from which there is no way off and for which there is no stop button You feel as though you have been king hit by the very earth casting aside its moorings It would be an awe inspiring thing to go through if it wasn t so damn frightening if it wasn t so damn unpredictable if it wasn t so damn inevitable Phil Pennington in *Surviving 7 8*
